

PRINCIPLES OF ECONOMICS

THURSDAY: 24 April 2025. Morning Paper.

Time Allowed: 2 hours.

This paper consists of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

- 1. Which one of the following statements is a basic economic problem?
 - A. Scarcity results from the fact that prices are too high
 - B. Scarcity is a result of limited wants and unlimited resources
 - C. Scarcity is caused by unlimited wants and limited resources
 - D. Scarcity results from the fact that if prices are too, high people want less (2 marks)
- 2. Which one of the following statements describes the circular flow of economic activity?
 - A. Households earn money in exchange for labour in a factor market
 - B. Firms earn money in exchange for goods and services in a factor market
 - C. Households earn money in exchange for labour in a product market
 - D. Households and firms both lose money in a factor market

(2 marks)

- 3. Which one of the following is a **CORRECT** statement of a country's production possibilities curve shifting outwards?
 - A. The country's production has decreased
 - B. The country has under-employed its resources
 - C. The country is experiencing a high rate of inflation
 - D. The country's level of technology has increased

(2 marks)

- 4. Which one of the following statements is a basic premise for classical economists?
 - A. Investment is lesser than savings
 - B. The prices of goods and services tend to be high
 - C. In times of macroeconomic disequilibrium, the natural forces of demand and supply will correct the economy
 - D. The economy may be at equilibrium below full employment

(2 marks)

- 5. Which one of the following statements is **CORRECT** regarding the Phillips Curve?
 - A. The relationship between unemployment and the rate of money wage inflation
 - B. The relationship between taxes and inflation is measured by this curve
 - C. The curve is used to measure profits and revenue
 - D. The curve can only be used with nominal GDP

(2 marks)

- 6. Which one of the following monetary policies is **MOST** effective in achieving equilibrium output?
 - A. Decreasing the money supply
 - B. Increasing the money supply
 - C. Decreasing the inflation rate
 - D. Increasing of taxes

(2 marks)

- 7. The marginal utility of a commodity can be **BEST** described as
 - A. the total satisfaction received from consuming a commodity
 - B. the extra unit of production that results from added units of labour
 - C. the concept that satisfaction increases as more goods are consumed
 - D. the extra utility derived from the consumption of one more unit of a commodity

(2 marks)

	countr			
	A.	C+G+I+X-M		
	B.	C + T + X + Y		
	C.	C+G+I+M-X		
	D.	G + I + R + X	(2 marks)	
9.		ch of the following economies does the government determine the utilisation of factors of pro-	oduction?	
	A.	Traditional economy		
	B.	Free market economy		
	C.	Planned economy	(2 1)	
	D.	Mixed economy	(2 marks)	
10.		one of the following statements explains what occurs to the demand curve when demand inc	reases?	
	A.	The quantity remains unchanged		
	В.	A shift in all quantities and prices to the right		
	C.	A shift in all quantities and prices to the left		
	D.	No movement occurs to the demand curve	(2 marks)	
11.	Marke	et equilibrium is deemed efficient as it maximises the sum of and		
	A.	Consumer surplus, government revenue		
	B.	Consumer surplus, producer surplus		
	C.	Consumer utility, producer profits		
	D.	Market price, market output	(2 marks)	
12.	Which one of the following statements describes the monopolistic aspect of a monopolistic competition?			
	A.	There is freedom of entry and exit to and from the industry		
	В.	There are many buyers and sellers in the market		
	C.	There are legal barriers to producing a good that would compete with firms already in the	market	
	D.	Firms in a monopolistic competition face a downward sloping demand curve	(2 marks)	
13.	Which	one of the following statements describes the condition for profit maximisation of a firm?		
15.	A.	Marginal revenue equals marginal cost		
	В.	Total revenue equals total cost		
	C.	Marginal revenue equals price		
	D.	Marginal product equals marginal cost	(2 marks)	
14.	Which	n one of the following statements is NOT a barrier to geographical mobility of labour?		
17.		Housing shortages especially of rented accommodation in urban areas		
	В.	Language barriers both at local and international levels		
	Б. С.	The fact that different people possess different natural abilities		
	D.	The reluctance to break existing social ties	(2 marks)	
	υ.	The refuctance to break existing social ties	(2 marks)	
15.		attempt to boost consumption, the government has raised the minimum wage. Which one of ted in order to realise this goal?	the following is	
	A.	Price floor		
	B.	Price ceiling		
	C.	Firms' demand		
	D.	Subsidy	(2 marks)	
16.	Which	n one of the following statements BEST explains a country or an entity that has a comparative If it can produce a particular commodity more than another country or entity	e advantage?	

- B. If it incurs a greater opportunity cost when producing a good or service as compared to any country or
- If in producing a good or service, it can do so at a relatively lower opportunity cost C.
- D. The country or entity has the capability to produce a greater quantity of that good compared to its competitors (2 marks)

- 17. Which of the following are considered as the regulating force within a free market system?
 - A. Taxes and government
 - B. Suppliers and consumers
 - C. Firms and government
 - D. Government and private sector

(2 marks)

Use the information below to answer Question 18 and Question 19.

The following represents national income of country Y in billions of shillings.

$$C = 150 + 0.6 Y_D$$

I = 100

G = 120

T = 80

- 18. Determine the consumption expenditure.
 - A. 1000
 - B. 885
 - C. 700
 - D. 585

(2 marks)

- 19. Determine the equilibrium level of national income.
 - A. 805
 - B. 705
 - C. 1000
 - D. 505

2 mark

- 20. Which one of the following types of goods have positive cross- elasticity of demand?
 - A. Normal
 - B. Inferior
 - C. Substitutes
 - D. Complements

(2 marks)

- 21. Which one of the following statements describes cost-push inflation?
 - A. Increase in the statements level as a result of too much demand
 - B. Increase in costs of production that drive up general price level
 - C. A rise in price level as a result of minimal demand
 - D. Decrease in the price level as a result of production costs

(2 marks)

- 22. Which one of the following components of national income serves as an example of a leakage?
 - A. Imports
 - B. Exports
 - C. Consumption
 - D. Investment

(2 marks)

- 23. Which one of the following provides **ACCURATE** measure of economic growth in a country?
 - A. The rate of unemployment
 - B. The rate of inflation
 - C. The rate of increase in real Gross Domestic Product (GDP) per capita
 - D. The rate of increase in nominal Gross Domestic Product

(2 marks)

24.		h one of the following statements describes the difference between structural unemployment ployment?	and cyclical
	A.	Structural unemployment and cyclical unemployment occur exclusively during the contraction	on phase
	В.	Structural unemployment relates to recent college graduates while cyclical unemployment expansion phase	
	C.	Structural unemployment describes discouraged workers while cyclical unemployment occupeak phase	ırs during the
	D.	Structural unemployment arises due to a deficiency in skills while cyclical unemployment of the contraction phase	occurs during (2 marks)
25.	When	a country is said to have a negative trade balance, it means that the country has	·
	A.	a trade deficit	
	В.	a budget deficit	
	C.	a trade surplus	
	D.	imported equal quantity of goods and services as they have exported	(2 marks)
26.		following are parts of internal diseconomies of scale to a firm, EXCEPT	
	A.	industrial dispute	
	B.	lack of power	
	C.	use of obsolete technology	(2 1)
	D.	exhaustion of market	(2 marks)
27.		h one of the following statements is an assumption of the law of diminishing returns?	
	Α.	Technology is constant	
	В.	Units of the variable factor are homogeneous	
	C.	Only one factor is variable	
	D.	No change in consumer tastes and preferences	(2 marks)
28.	Whic	h one of the following statements is NOT a characteristic of perfect competition?	
	A.	There are many consumers	
	В.	There are super normal profits in the long-run	
	C.	The demand is perfectly elastic	
	D.	There are no barriers of entry	(2 marks)
29.		following are causes of demand-pull inflation, EXCEPT	
	A.	increase in interest rates	
	В.	increase in population	
	C.	decrease in taxes	
	D.	decrease in government expenditure	(2 marks)
30.	Whic	h one of the following statements is NOT an objective of International Monetary Fund (IMF)?	
	A.	To stabilise exchange rates	
	В.	To give long-term loans	
	C.	To promote international monetary co-operation	
	D.	To promote international trade	(2 marks)
31.	The f	following are roles of commercial banks, EXCEPT	
	A.	giving loans	
	B.	accepting deposits	
	C.	issuing of currency	
	D.	creation of employment	(2 marks)

Use the information below to answer Questions 32 and 33.

The following information relates to a firm in a certain market.

P = 75 $TC = 980 - 30Q + 4Q^2$ 32. Calculate the profit maximising level of output. A. 13.125 12.25 B. C. 18.5 D. 10.125 (2 marks) 33. Determine the level of output that minimises marginal cost. A. 2.35 B. 1.45 C. 3.75 D. 4.5 (2 marks) 34. Which one of the following is **NOT** an injection into the circular flow of income? A. **Exports** B. Investments C. Government spending D. **Imports** (2 marks) 35. The following are cannons of taxation, **EXCEPT** principle of productivity A. B. principle of elastic C. principle of utmost good faith principle of diversity D. (2 marks) 36. Which one of the following statements is **NOT** an effect of unemployment? A. Causes social suffering B. Leads to increase in population C. Decreases government expenditure D Leads to increase in crime (2 marks) 37. Which one of the following circumstances might make a trade union negotiate for higher wages? When labour costs constitute a significant portion of the firm's overall costs A. B. When the firm is generating substantial profits When the firm introduces capital intensive production C. When rival firm's launch a successful alternative product D. (2 marks) 38. Which one of the following definitions describes a closed economy? A. There are no exports to other countries B. Deficit financing takes place C. There are no imports or exports D. The government has complete control over money supply (2 marks) 39. The importance of income elasticity of demand to producers is that it shows how a firm's sales fluctuate in response to economic shifts throughout the business cycle A. B. the potential decrease in sales when prices are raised C. the potential increase in quantity supplied when prices are raised D. the effect of price increases on firm's total revenue (2 marks)

40.		h one of the following statements is the BEST explanation for the rightward shift in the su	ipply curve of a
	produ A.	Introduction of a tax on that product by the government	
	В.	Increase in the price of raw materials	
	C.	An advertising campaign that is successful in promoting the product	
	D.	Introduction of a new technique that makes the commodity cheaper	(2 marks)
41.	Whic	h one of the following factors is NOT a cause of deflationary gap?	
	A.	High interest rates	
	B.	Decrease in government expenditure	
	C.	Fear of retrenchment	
	D.	Unstable exchange rates	(2 marks)
42.	Whic	h one of the following statements is NOT a condition necessary for price discrimination?	
	A.	The commodity must be homogeneous	
	B.	There are cases of special orders	
	C.	There is perfect knowledge about the market	
	D.	The markets must be separate	(2 marks)
43.	The f	following roles of agriculture in an economy, EXCEPT	
	A.	food security	
	B.	earning of foreign exchange	
	C.	increase in employment	
	D.	control of inflation	(2 marks)
44.	Whic	h one of the following statements is NOT an effect of a price floor?	
	A.	Demonstration and an arrangement and arrangement and arrangement are a second and arrangement are a second arrangement ar	
	B.	Ensures stability in income	
	C.	Creates excess supply	
	D.	Ensures stability in income Creates excess supply Consumers are exploited	(2 marks)
45.	Whic	h one of the following statements is NOT a goal of economic development in developing cou	ntries?
	A.	Attainment of full employment	
	В.	Favourable government policies	
	C.	Price stability	
	D.	Favourable balance of payments	(2 marks)
46.	Whic	h one of the following statements is a merit of specialisation?	
	A.	It promotes modernisation of culture	
	B.	It saves time of undertaking an activity	
	C.	The government earns revenue	
	D.	It promotes investments	(2 marks)
47.	The c	concept of returns to scale refers to the change in output when	
	A.	capital equipment is doubled	
	B.	all inputs increase proportionately	
	C.	labour increases while other inputs remain constant	
	D.	specialisation is improving	(2 marks)
48.		the price changes by 1% and the supply changes by 2%, the supply is considered	·
	A.	elastic	
	В.	inelastic	
	C.	highly inelastic	(2 1)
	D.	static	(2 marks)

49.	Whic	h one of the following statements is NOT a condition for obtaining the optimal point of a firm?	
	A.	The isoquant must be convex to the origin	
	B.	The isocost must form tangential to an isoquant	
	C.	The ratio of marginal product to price for the two factors must be equal	
	D.	The budget line must form a tangent with an indifference curve	
			(2 marks)
50.	The f	following are adjustments to the income method of measuring national income, EXCEPT	
	A.	net factor income from abroad	
	B.	exports	
	C.	subsidies	
	D.	depreciation	(2 marks)

PRINCIPLES OF ECONOMICS

WEDNESDAY: 4 December 2024. Morning Paper.

This paper consists of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

1.	Whic	h one of the following is NOT a basic economic problem?	
	A.	What to produce	
	B.	How long to produce	
	C.	How to produce	
	D.	For whom to produce	(2 marks)
2.	Whic	h one of the following is NOT a use of production possibility frontier?	
	A.	Explains elasticity	
	B.	Explains scarcity	
	C.	Explains opportunity cost	
	D.	Explains positive economics	(2 marks)
3.	Whic	h one of the following is a characteristic of human wants?	chor
	A.	They are unlimited	WAY.
	B.	They are complementary	MA
	C.	They are primary	
	D.	They are secondary	(2 marks)
4.	The f	ollowing are the merits of a mixed economic system, EXCEPT	
	A.	a variety of goods and services	
	B.	it controls market imperfections	
	C.	there is equal distribution of income	
	D.	there is control over externalities	(2 marks)
5.	Whic	h one of the following is a cause of a leftward shift in the supply curve?	
	A.	Increase in price	
	B.	Decrease in taxes	
	C.	Unfavourable weather condition	
	D.	Increase in the costs of production	(2 marks)
6.	Whic	h one of the following is NOT an adjustment to the income method of measuring national income	?
	A.	Indirect taxes	
	В.	Appreciation	
	C.	Imports	
	D.	Net factor income from abroad	(2 marks)
7.	Whic	h one of the following factors is a fiscal policy to control inflation?	
	A.	Decrease in government expenditure	
	В.	Increase in interest rate	
	C.	Sale of government securities	
	D.	Increase in income tax	(2 marks)
			\/

Time Allowed: 2 hours.

Use the following information to answer Question 8 and Question 9:

P = 16 - 5Q

The following represents the demand function for a commodity X in a certain market.

8. Determine the point price elasticity of demand when P = 2.51.5 B. 0.25 C. 0.0159 D. 0.59 (2 marks) 9. From the results obtained in question 8 above, interpret your results. Inelastic demand В. Unitary demand C. Perfectly inelastic demand D. Elastic demand (2 marks) 10. The following are the measures to correct underdevelopment in developing countries, **EXCEPT** _ development of infrastructure A. B. improvement in democracy C. adoption of family planning methods D. increasing external borrowing (2 marks) 11. Which one of the following is a characteristic of duopoly? Demand curve is kinked В. Supernormal profits in the long-run C. Free entry and exit D. Control over externalities (2 marks) 12. Which one of the following is a merit of a managed floating exchange rate? Promotes creation of employment A. B. Increases government revenue C. Strengthen the monetary policy D. Reduces interest rates (2 marks) 13. Which one of the following is an advantage of delocalisation of industries? Displacement of people A. B. Increase in crimes Over-exploitation of natural resources C. D. Creation of employment (2 marks) 14. Which one of the following is **NOT** a property of isoquants? A. Asymptotic В. Negatively sloped C. Concave to the origin D. Non-intersecting lines (2 marks) 15. The following are assumptions of indifference curves, **EXCEPT** _ constant technology A. B. constant prices C. constant amount of money D. (2 marks) consumer is rational 16. Which one of the following is a demerit of a monetary economy? A. Lack of transparency В. It is cost ineffective C. It causes scarcity of goods D. It causes unequal distribution of income (2 marks)

17.	Whic	h one the following BEST explains the import-substitution strategy?	
	A.	Controlling imports	
	В.	Substituting imports	
	C. D.	Increasing exports Establishing industries to produce goods being imported	(2 marks)
10			(2 marks)
18.	Whic A.	h one of the following factors does NOT determine interest rates in an economy? Prevailing political situation	
	В.	International Monetary Fund (IMF) and the World Bank	
	C.	Competition among financial institutions	
	D.	Demand for money	(2 marks)
19.	Whic	h one of the following is a demerit of capital-intensive technique of production?	
	A.	It is not flexible	
	B.	It requires high skills	
	C.	It is affected by lack of power	
	D.	It requires retraining of workers	(2 marks)
20.	Whic	h one of the following statements is an advantage of delocalisation of industries?	
	A.	There is provision of security in an area	
	В.	Availability of skilled labour	
	C.	Availability of market for finished goods	
	D.	It enhances exploitation of natural resources	(2 marks)
21.	Whic	h one of the following is NOT a barrier in international trade?	
	A.	Quotas	
	В.	Foreign exchange decontrol	
	C.	Subsidies	
	D.	Trade embargo	(2 marks)
22.	Whic	h one of the following is a method used in measuring national income?	WW. Clar
	A.	Expenditure	27
	В.	Consumption	
	C.	Taxation	
	D.	Investment	(2 marks)
23.	The f	following are the assumptions of consumer's equilibrium position, EXCEPT	.
	A.	consumers' tastes and preferences change	
	В.	goods are homogeneous	
	C.	consumer is rational	
	D.	goods are perfectly divisible	(2 marks)
24.	Whic	h one of the following factors influences the cost behaviour in a firm?	
	A.	Consumer sovereignty	
	В.	Quantity demanded	
	C.	The profit of the firm	
	D.	Technology application	(2 marks)
25.	The I	Phillips Curve shows the relationship between which variables?	
	A.	Tax and inflation	
	В.	Population and unemployment	
	C.	Inflation and unemployment	
	D.	Unemployment and tax	(2 marks)
26.	Whic	h one of the following statements is NOT an assumption of the law of diminishing marginal utility	?
	A.	The units of the commodity must be homogenous	
	B.	The consumer combines two commodities	
	C.	Consumer's tastes and preferences are constant	
	D	Price level remains constant	(2 marks)

27.	The d	lemand curve is negatively sloped due to	
	A.	substitution effect	
	B.	change in government policies	
	C.	technological changes	
	D.	regressive demand	(2 marks)
28.	Whic	h one of the following factors might influence labour mobility?	
	A.	Geographical location	
	B.	Occupational changes	
	C.	Technological changes	
	D.	Government policy	(2 marks)
29.	Whic	h one of the following statements CORRECTLY represents the stages of the law of diminishi	ng returns?
	A.	Increasing returns to scale, average returns, decreasing returns	C
	В.	Constant returns, increasing returns, decreasing returns	
	C.	Increasing returns, constant returns, decreasing returns	
	D.	Constant returns, increasing returns, decreasing returns	(2 marks)
30.	Whic	h one of the following statements defines the term "Multiplier effect" as used in economies?	
50.	A.	Increase in investments in a country due to increased income	
	В.	Number of times by which an initial investment increases national income	
	C.	Number of times by which consumption increases due to increase in income	
	D.	Number of times by which savings increase due to reduced consumption	(2 marks)
	υ.	Number of times by which savings increase due to reduced consumption	(2 marks)
31.	A hyp	pothetical economy has a Marginal Propensity to Save (MPS) of 0.2.	
	Calcu	alate the Marginal Propensity to Consume (MPC).	
	A.	0.80	
	В.	0.50	
	C.	0.75	
	D.	1.00	(2 marks)
32.	Whic	h one of the following is NOT a motive for liquidity preference?	
	A.	Precautionary motive	
	В.	Transactionary motive	
	C.	Saving motive	
	D.	Speculative motive	(2 marks)
	D.	Speculative motive	(2 marks)
33.	Whic	h one of the following is a cause of unemployment in developing countries?	
	A.	Appropriate education system	
	B.	Adequate capital	
	C.	Favourable government policies	
	D.	Insufficient skills for the job market	(2 marks)
34.	Whic	h one of the following is a limitation of economic planning in developing countries?	
	A.	Political stability	
	B.	Lack of qualified planning personnel	
	C.	Co-operation from stakeholders	
	D.	Low inflation rates	(2 marks)
35.	Whic	h one of the following is NOT a function of non-bank financial institutions?	
	A.	Agent of securities exchange	
	В.	Mobilise savings	
	C.	Advance loans	
	D.	Offer financial advice	(2 marks)
36.	Which	h one of the following statements is NOT TRUE about the cause of cost-push inflation?	
50.	A.	It is caused by the increase of fuel costs	
	В.	It is caused by an increase in costs of raw materials	
	C.	It is caused by an increase in demand in an economy	
	D.	It is caused by an increase in demand in an economy It is caused by an increase in interest rates	(2 marks)
	ν.	it is eaused by an increase in increast rates	(2 marks)

37.	Which of	one of the following describes a KEY assumption of the monopoly model?	
	A.	There is product differentiation	
	B.	The monopoly is a price setter	
	C.	There are identical producers	
	D.	The monopoly is a price taker	(2 marks)
38.	In the sh	nort run, which one of the following is the CORRECT formula for calculating total cost?	
	A.	The sum of average variable cost and average fixed cost	
	B.	The sum of marginal cost and total variable cost	
	C.	The sum of average variable cost and marginal cost	
	D.	The sum of total variable cost and total fixed cost	(2 marks)
39.	Which a	aspect of aggregate demand is the MAIN focus of monetary policy?	
	A.	Investment	
	B.	Consumption	
	C.	Exports	
	D.	Imports	(2 marks)
40.	The goa	l of expansionary fiscal policy is to decrease	
	A.	employment and increase inflation	
	B.	unemployment and decrease output	
	C.	unemployment and increase gross domestic product	
	D.	inflation and decrease employment	(2 marks)
41.	What w	ould happen if the price floor is set higher than the equilibrium price?	
	A.	Equilibrium is restored	
	B.	Shortages are experienced	
	C.	Producers will move away from lines of production	
	D.	Surpluses are experienced	(2 marks)
42.	Which o	one of the following is the CORRECT statement about the law of diminishing marginal utility?	Warm, tho
	A.	As the quantity of a good consumed decreases, marginal utility will eventually increase	24
	B.	As the quantity of a good consumed increases, marginal utility will eventually decrease	
	C.	As the quantity of a good consumed increases, marginal utility will eventually increase	
	D.	As the quantity demanded rises, the prices rise	(2 marks)
43.	Which o	one of the following BEST describes Gross National Product (GNP)?	
	A.	The total monetary value of all goods and services produced in a country and the net factor in	come from
		abroad	
	B.	The total monetary value of goods and services produced within a country	
	C.	The total value of all the transactions within a country	
	D.	The depreciation of the total value of goods and services produced within the country	(2 marks)
Use the	informa	tion below to answer Question 44 and Question 45:	
		omy where the marginal propensity to consume is 0.75 and the investment expenditure in the	e economy
		55 billion.	
44.	Determi	ne the total increase in national income?	
	A.	Sh.200 billion	
	B.	Sh.120 billion	
	C.	Sh.220 billion	
	D.	Sh.210 billion	(2 marks)
45.	Determi	ne the multiplier.	
	A.	4.00	
	B.	4.50	
	C.	0.75	
	D.	0.25	(2 marks)

46.	The la	law of supply states that, ceteris paribus, when the price of a commodity	, the quantity supplied
	A.	increases; decrease	
	В.	rises; rise	
	C.	increases; remain constant	
	D.	rises; falls	(2 marks)
47.	The p	primary distinction between microeconomics and macroeconomics is	
	A.	microeconomics focuses on broad aggregates, while macroeconomics primaril	ly on producers
	B.	macroeconomics is primarily concerned with international trade, whereas individual markets	nicroeconomics focuses or
	C.	macroeconomics focuses on individual markets, while microeconomics is international trade	primarily concerned with
	D.	microeconomics focuses on individual units such as consumers, resource whereas macroeconomics focuses on the economy as a whole	owners and business firms (2 marks)
48.	Whic	ch one of the following statements is NOT TRUE about export promotion industri	alisation?
	A.	It is a policy closer to free trade and therefore encourages international trade	
	B.	Export oriented regimes tend to be associated with more realistic exchange rat	es
	C.	The main beneficiaries of export promotion are mainly foreign firms	
	D.	Export promotion strategies may also promote competition on lines of compar	rative advantage (2 marks)
49.	The u	use of to influence macroeconomic variables is known as mone	tary policy.
	A.	taxes	
	В.	government borrowing	
	C.	government spending	
	D.	money supply	(2 marks)
50.	Whic	ch one of the following equations depict a situation where a consumer maximises	s his utility when he spends
	all his	is income on commodities X and Y?	•
	A.	$MU_X/P_X = MU_Y/P_Y$	
	B.	is income on commodities X and Y ? $MU_X/P_X = MU_Y/P_Y$ $MU_X/MU_Y = P_X/P_Y$ $MU_Y + P_X = MU_X + P_Y$ $MU_{XY} + P_{YY} = MU_{YY} + P_{YY}$	
	C.	$MU_Y + P_X = MU_X + P_Y$	
	D.	$MU_Y + P_Y = MU_X + P_X$	(2 marks)

PRINCIPLES OF ECONOMICS

WEDNESDAY: 21 August 2024. Morning Paper.

This paper consists of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

- 1. Which one of the following statements **BEST** describes economics?
 - A. How society allocates scarce resources to satisfy unlimited wants
 - B. How to ensure resources are equally shared
 - C. How resources should be allocated
 - D. How to increase economic development

(2 marks)

Time Allowed: 2 hours.

- 2. Which one of the following factors might cause movement along a supply curve?
 - A. Existence of favourable weather conditions
 - B. Increase in indirect tax
 - C. Change in price
 - D. Increase in government subsidy

(2 marks

- 3. Which one of the following conditions is necessary for price discrimination by a monopoly?
 - A. There must be perfect knowledge about the market
 - B. The elasticity of demand in different markets must be different
 - C. The markets should not be separate
 - D. There must be no barrier to entry into the industry

(2 marks)

- 4. All things being equal, which one of the following statements would **NOT** induce economic growth?
 - A. Increase in the stock of machinery
 - B. Improvement in the level of technology
 - C. Increase in the number of labour force
 - D. Increase in the consumption of products

(2 marks)

- 5. Which one of the following statements is an advantage of small-scale industries in developing countries?
 - A. Stiff competition from large scale industries
 - B. A country's balance of payments position improves
 - C. Small scale industries enjoy technical economies of scale
 - D. The government provides necessary infrastructure

(2 marks)

- 6. Which one of the following statements is **NOT** a limitation of Marshallian utility analysis? The analysis
 - A. considers marginal utility of money to be variable
 - B. does not consider the income and substitution effects
 - C. assumes that consumers will always behave rationally
 - D. assumes perfect divisibility of commodities

(2 marks)

- 7. Which one of the following factors does not influence demand?
 - A. Price of the product
 - B. Income of the consumers
 - C. Price of substitute goods
 - D. Cost of production (2 marks)

8.	Whic	th one of the following statements BEST describes external economies of scale?	
	A.	Problems a firm experience due to expansion	
	B.	Benefits which accrue to a firm as a result of growth in the whole industry	
	C.	Benefits which a firm derives from large purchases	
	D.	Advantages that accrue to a single firm independent of other firms in the industry	(2 marks)
9.	Whic	th one of the following statements refers to a demerit of delocalisation of firms?	
	A.	Adverse environmental problems due to concentration of firms in one region	
	B.	Overdependence on the products of a single industry	
	C.	Contributes to rural urban migration	
	D.	Production of substandard goods due to protection from government	(2 marks)
10.	Whic	th one of the following statements is TRUE during recession?	
	A.	Unemployment increases	
	B.	Employment increases	
	C.	Unemployment decreases	
	D.	Salary increases	(2 marks)
11.	Whic	th one of the following statements is NOT a characteristic of mixed economic system?	
	A.	Government provides the essential goods and services	
	B.	There is ownership of both private and public properties	
	C.	There are a large number of buyers and sellers	
	D.	Both the private and public sectors create employment	(2 marks)
12.	Whic	ch one of the following is a fiscal policy to control inflation?	
	A.	Bank rate	
	B.	Moral suasion	
	C.	Reserve margins	
	D.	Borrowing	(2 marks)
13.	Whic	th one of the following statements is NOT a characteristic of indifference curves?	
	A.	They are negatively sloped	
	B.	They are concave to the origin	
	C.	They are asymptotic	
	D.	Indifference curves never intersect	(2 marks)
14.	Whic	th one of the following factors influence supply of a commodity?	
	A.	Technology	
	B.	Advertising	
	C.	Population	
	D.	Credit	(2 marks)
15.	The b	oranch of economics known as macroeconomics is based on the principle of	
	A.	producer	
	B.	opportunity cost	
	C.	consumer	
	D.	national income	(2 marks)
16.	Whic	th one of the following statements is NOT a limitation of consumer sovereignty?	
	A.	The size of the consumers income	
	В.	The existence of oligopolies	
	C.	The nature of economic system	
	D.	The range of goods available	(2 marks)
			`

Use the information given below to answer question 17 and question 18.

The table below represent hypothetical figures for total utility (TU) derived from consumption of two goods X and Y. The price of X is Sh.10 and Sh.6 for Y.

S/No	Units	TU(X)	TU (Y)
1.	4	144	120
2.	8	240	208
3.	12	320	272
4.	16	380	320

- 17. Determine the marginal utility for good X at 4 units.
 - A. 24
 - B. 30
 - C. 15
 - D. 36

(2 marks)

- 18. Determine the marginal utility for good Y at 16 units.
 - A. 14
 - B. 12
 - C. 16
 - D. 20

(2 marks)

- 19. Which one of the following statements describes the term "economic planning"?
 - A. Increase in a country's national income including institutional and structural changes
 - B. Increase in the Gross National Product represented by a rightward shift of aggregate demand
 - C. A deliberate attempt by the State to make the best use of a country's resources
 - D. Increase in the productive capacity of an economy

(2 marks)

- 20. Which one of the following statements is an economic effect of increased money supply in an economy?
 - A. Producers can produce more at the same price as before
 - B. High demand of goods due to increased purchasing power
 - C. Interest rates increase due to excess liquidity
 - D. Demand exceeds supply thus market forces exert pressure on prices to rise causing inflation (2 marks)
- 21. Which one of the following statements describes public goods?
 - A. Goods consumed in public
 - B. Goods that are ready to be consumed
 - C. Goods used to produce other goods
 - D. Goods available to all

(2 marks)

- 22. Which one of the following statements is a type of labour mobility?
 - A. Individual mobility
 - B. Group mobility
 - C. Horizontal mobility
 - D. Temporary mobility

(2 marks)

- 23. Which one of the following statements is **NOT** a law of returns to scale?
 - A. Law of average returns to scale
 - B. Law of constant returns to scale
 - C. Law of increasing returns to scale
 - D. Law of decreasing returns to scale

(2 marks)

- 24. Which one of the following is a fiscal policy tool?
 - A. Bank rate policy
 - B. Taxation policy
 - C. Open market operation
 - D. Marginal value

(2 marks)

23.	which one of the following statements defines devaluation of currency?	
	A. Market forces lowering the value of a country's currency	
	B. Central bank increasing the value of a country's currency	
	C. Commercial bank's lowering their lending rate	
	D. Central bank lowering the value of a country's currency	(2 marks)
	2. Committee working one value of a committy of carrency	(= 11111115)
26	Which are of the following phases compathy outlines a hydrogen avale?	
26.	Which one of the following phases correctly outlines a business cycle?	
	A. Expansion, maturity, depression, revival	
	B. Boom, constant, diminishing, revival	
	C. Boom, recession, depression, revival	
	D. Expansion, boom, depression, revival	(2 marks)
27.	Which one of the following measures may NOT correct the balance of payments deficit?	
	A. Import substitution	
	B. Revaluation of currency	
	C. Export promotion	
	D. Economic integration	(2 marks)
28.	Which one of the following statements describes competitive demand? It is demand for goods	•
	A. used independently	
	B. used together	
	C. with several uses	
	D. that serve the same purpose	(2 marks)
	D. that serve the same purpose	(2 marks)
20	White calculation is a contract to the contrac	
29.	Which one of the following statements is an assumption of the law of diminishing marginal utility?	
	A. Units of the commodity must be consumed continuously	
	B. Price level should vary with goods purchased	
	C. Consumer can vary the types of goods consumed	
	D. Consumer can consume different units of the commodity	(2 marks)
		(,
30.	Which one of the following is NOT a level of production?	
50.	A. Tertiary production	
	B. Indirect production	
	C. Secondary production	
	D. Primary production	(2 marks)
31.	Which one of the following statements explains the term "price discrimination"? Selling	•
	A. different goods at similar prices	
	B. similar goods at similar prices	
	C. different goods at different prices	
	D. similar goods at different prices	(2 marks)
	D. Sillina goods at different prices	(2 marks)
TT 41		
Use th	e information given below to answer question 32 and question 33.	
TD1 C		
	llowing equation represents the demand and supply functions for a commodity in a certain market.	
$Q_D \equiv 1$		
$Q_S = -$	5 + 3P	
Where	P is the price and Q is the quantity of the commodity.	
32.	Determine the equilibrium price.	
	A. 2	
	B. 5	
	C. 3	(2 1 >
	D. 8	(2 marks)
22		
33.	Determine the equilibrium quantity.	
	A. 8	
	B. 4	
	C. 5	
	D. 2	(2 marks)

34.	Whic	h one of the following statements explains the concept of producer equilibrium?			
	A.	Level of output which gives the firm maximum profit			
	В.	Level of output where the firm minimises loss			
	C.	Level of output which earns the producer normal profits			
	D.	Level of output where producer utilises all inputs	(2 marks)		
35.	Whic	h one of the following statements is an advantage of localisation of industries?			
33.	A.	Decreased output			
	В.	Increased externalities			
	C.	Reduced competition			
	D.	Available skilled workforce	(2 marks)		
	ъ.	Tivaliable skilled workforce	(2 marks)		
36.	Whic	h one of the following is NOT a characteristic of money?			
	A.	Unit of account			
	В.	General acceptability			
	C.	Stability in value			
	D.	Malleability	(2 marks)		
37.	Whic	h one of the following statements is NOT a cause of fluctuating prices of agricultural commodi	ties?		
37.	A.	Increase in taxation	ues:		
	В.	Changes in climate			
	C.	Gestation period	(2		
	D.	Differences in the elasticities of supply	(2 marks)		
38.	Whic	h one of the following is NOT the cause of external debt problems in developing countries?			
	A.	Corruption			
	В.	Poor terms of trade			
	C.	Calamities			
	D.	High taxation	(2 marks)		
39.	Whic	h one of the following statements is a cause of demand-pull inflation?	Mary Str		
39.	A.	Increase in population	THE WAY		
	В.	Decrease in interest rates			
	Б. С.				
	C. D.	Increase in taxes Boom in an economy	(2 marks)		
	Δ.	Doom in an economy	(2 marks)		
40.	Whic	h one of the following is NOT a type of unemployment?			
	A.	Keynesian unemployment			
	В.	Imported unemployment			
	C.	Frictional unemployment			
	D.	Hidden unemployment	(2 marks)		
41.	Whic	h one of the following statements is NOT a cause of a deflationary gap in an economy?			
11.	A.	Increase in income tax			
	В.	Decrease in government expenditure			
	C.	Increase in interest rate			
	D.	Fear of retrenchment	(2 marks)		
42.	Which one of the following statements is NOT an assumption of the marginal productivity theory of wage				
		mination?			
	Α.	Labour is homogeneous			
	В.	Perfect competition			
	C.	Commodity is homogeneous			
	D.	Existence of Perfect knowledge	(2 marks)		
43.	Whic	h one of the following statements is NOT a role of the informal sector in an economy?			
	A.	Diversification of the economy			
	В.	Controlling of imports			
	C.	Creation of employment			
	D.	Increase government revenue	(2 marks)		
			,		

44.	A.	Institutional constraints	!
	B.	High taxation	
	C.	Low government expenditure	<i>(</i> 2
	D.	Surplus balance of payments	(2 marks)
45.	Whic	h one of the following statements is NOT a measure to control geographical mobility of labour?	
	A.	Construction of low-cost houses	
	B.	Giving hardship allowance	
	C.	Development of infrastructure in underdeveloped areas	
	D.	Adopting modern technology	(2 marks)
46.	The fe	ollowing conditions must be satisfied for a consumer to be considered as rational EXCEPT	·
	A.	axiom of selection	
	B.	axiom of transformation	
	C.	axiom of completeness	
	D.	axiom of non-satisfaction	(2 marks)
47.	Whic	h one of the following factors is NOT a cause of balance of payments deficit?	
	A.	Political instability	
	В.	Calamities	
	C.	High taxation	
	D.	Inflation	(2 marks)
48.	The fe	ollowing are forms of economic integration EXCEPT	
	A.	trade creation	
	В.	monetary union	
	C.	common market	
	D.	customs union	(2 marks)
			()
49.		omists typically assume that the main aim of a firm is to maximise	
	A.	revenue	
	В.	profit	
	C.	utility	
	D.	sales	(2 marks)
50.	Whic	h one of the following factors does not NOT determine the level of national income?	
	A.	Technology	
	В.	Per capita income	
	C.	Level of employment	
	D.	Terms of trade	(2 marks)

PRINCIPLES OF ECONOMICS

WEDNESDAY: 24 April 2024. Morning Paper.

A. B.

C.

D.

Wide variety of goods available in a country

High quality goods produced in a country

Access to modern technology

This paper is made up of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything

on th	is paper	•	
1.	Whic	th of the following statements defines opportunity cost?	
	A.	Lack of opportunity	
	В.	Cost of foregone best alternative	
	C.	Limited choice	
	D.	Cost of preferred choice	(2 marks)
2.	Choo	se the statement that does NOT represent a characteristic of isoquants.	
	A.	Isoquants are positively sloped	
	B.	They are non-intersecting	
	C.	The higher the isoquant the higher the output	
	D.	Do not touch any of the axis	(2 marks)
3.	Whic	th one of the following statements is NOT a solution to inflation?	(2 marks)
	A.	Increase taxes	4
	В.	Increase production	
	C.	Reduce imports	
	D.	Increase wages	(2 marks)
4.	Ident	ify the factor that may cause a movement along a demand curve.	
	A.	Consumer's income	
	B.	Tastes and preferences	
	C.	Price of the good	
	D.	Seasonal change	(2 marks)
5.	Whic	th of the following is an exception to the law of diminishing marginal utility?	
	A.	Substitute goods	
	B.	Complimentary goods	
	C.	Inferior goods	
	D.	Liquor goods	(2 marks)
6.	Whic	th of the following is NOT a method for measuring a country's national income?	
	A.	Output approach	
	B.	Per capita approach	
	C.	Expenditure approach	
	D.	Income approach	(2 marks)
7.	Ident	ify an advantage of adopting protectionism policy in a country.	
	A.	Improved balance of payment	

(2 marks)

Time Allowed: 2 hours.

8.	Whic	h of the following is a motive for liquidity preference?	
	A.	Exchange motive	
	B.	Saving motive	
	C.	Speculative motive	
	D.	Expansionary motive	(2 marks)
0	3371		
9.		h of the following statements is a characteristic of a developing country?	
	A.	Favourable terms of trade	
	В.	Low per capita income	
	C.	High literacy levels	
	D.	Diversification in production	(2 marks)
10.	The e	exception to the law of supply is applied in which of the following case?	
10.	A.	Backward bending supply curve of labour	
	В.		
		Production possibility curve	
	C.	Marginal product curve	(2 1)
	D.	Expansion path	(2 marks)
11.	Choo	se the statement that explains the concept of price control.	
	A.	Where prices of goods are set through bargaining	
	В.	Where market equilibrium price is applied	
	C.	Where sellers fix maximum and minimum price	
	C. D.		(2 montrs)
	D.	Where the prices are fixed through government legislation	(2 marks)
12.	Whic	h of the following is NOT a monetary policy?	
	A.	Open market operation	
	B.	Selective Credit Control	
	C.	Taxation policy	
	D.	Cash ratio	(2 marks)
1.0	C1	Taxation policy Cash ratio se a benefit of economic planning in a country. There is misappropriation of resources	, ,
13.		se a benefit of economic planning in a country.	
	A.	There is misappropriation of resources	
	В.	Reduced foreign aid in a country	
	C.	There is duplication of economic resources	
	D.	Corrects the challenges of price mechanism	(2 marks)
14.	Idant	for a shallower found by the againstitude action in Vanya	
14.		ify a challenge faced by the agricultural sector in Kenya.	
	A.	Wide variety of goods	
	В.	Changing weather patterns	
	C.	Increased government subsidies	
	D.	Stable prices	(2 marks)
15.	Whic	h of the following is NOT a function of commercial banks?	
	A.	Lender of last resort	
	В.	Accepts deposits	
	C.	Provides safety lockers	(2 1)
	D.	Acts as agents of the stock exchange	(2 marks)
16.	Whic	h of the following expresses GNP correctly?	
	A.	GNP = NNP - Depreciation	
	В.	GNP = GDP + Net factor income from abroad	
	C.	GNP = NNI – Indirect tax	
	D.	GNP = GDP - Subsidies + Net factor income from abroad	(2 marks)
	D.	GIVE GDT Subsidies - the factor medine from acroad	(2 marks)
Use tl	ne infor	mation given below to answer question 17 and question 18.	
Δ firm	n je mrad	ucing 10 units of output at a total cost of Sh.20,000 with its fixed cost being Sh.10) 000. The firm increased its
		nits and the total cost increased to Sh.25,000.	7,000. The min mereased its
•			
17.		rmine the firm's marginal cost of producing the 12 th unit of output.	
	A.	5,000	
	В.	15,000	
	C.	10,000	
	D.	2,500	(2 marks)

18.	Determine the firm's average variable cost when it produces the 12 th unit of output.					
	A.	15,000				
	В.	7,500				
	C.	1,250				
	D.	5,000	(2 marks)			
19.	Whic	h of the following is a characteristic of a perfect competition market structure?				
	A.	Few sellers				
	B.	Many buyers				
	C.	Different prices				
	D.	Non-uniform goods	(2 marks)			
20.	Ident	ify the correct representation of the stages of the law of diminishing returns.				
	A.	Constant returns, no returns, increasing returns				
	B.	Diminishing returns, no returns, increasing returns				
	C.	No returns, constant returns, diminishing returns.				
	D.	Increasing returns, constant returns, diminishing returns	(2 marks)			
21.	Whic	h of the following statements BEST explains the concept of economic development?				
	A.	Economic development is an increase in a country's national income				
	В.	Economic development is an increase in a country's net income from abroad				
	C.	Economic development is an increase in a country's GNP plus institutional changes				
	D.	Economic development is an increase in a country's GNP as well as GDP	(2 marks)			
22.	Class	ify the TWO broad sources of public debt.				
	A.	Internal and external				
	B.	Regional and international				
	C.	Floating and self-liquidating				
	D.	Short term and long term	(2 marks)			
23.	Choo	se the policy that explains a country's reliance on its locally produced goods.	Juny Che			
	A.	Export promotion	47			
	В.	Import substitution				
	C.	Protectionism policy				
	D.	Import restriction	(2 marks)			
24.	Ident	ify an assumption of indifference curve analysis.				
	A.	Consumer's income increases				
	В.	Consumers are irrational				
	C.	Indifference curves are convex to the origin				
	D.	Commodity is homogeneous and divisible	(2 marks)			
25.		h of the following is NOT a function of money?				
	A.	Measure of living standards				
	В.	Measure of value				
	C.	Medium of exchange				
	D.	Standard of deferred payments	(2 marks)			
26.		necessary condition for profit maximisation by a firm is attained where,				
	A.	TR > TC				
	В.	AC = AR				
	C.	VC < FC	/a · · ·			
	D.	MR = MC	(2 marks)			
27.		following are the effects of fixing a price floor. Which one is NOT?				
	A.	It encourages investments				
	B.	It creates an excess demand				
	C.	It causes unemployment	(21)			
	D.	Producers are assured of stable incomes	(2 marks)			

28. Which one of the following is an objective of a trade union? Creation of employment A. В. Promotes investments C. Improvement of infrastructure D. Promote training of workers (2 marks) 29. The following are the characteristics of "drive to maturity stage" according to Rostow's stages of economic growth. Which one is NOT? A. There is low external influence В. The economy is fully monetised C. High savings D. Rapid technological change (2 marks) Use the following information to answer question 30 and question 31. The following information relates to a consumer in a certain market. Price of X Income Price of Y Quantity demanded of commodity X (Sh.) (Sh.) (Sh.) (units) 12 250 20 15 500 30 90 30. Determine the cross elasticity of demand. A. 3 B. 0.6 C. 0.4 0.8 D. (2 marks) 31. From the data provided above, interpret your results. A. Unitary В. Perfectly elastic C. Elastic D. Inelastic (2 marks) Which one of the following is **NOT** a method of price determination under oligopoly? 32. Price mechanism A. В. Price under collusion C. Price leadership D. Independent pricing (2 marks) 33. The following are the characteristics of a production possibility frontier. Which one is **NOT?** A. Only two goods are produced В. Technology is constant Assumes a situation of full employment C. D. Opportunity cost is constant. (2 marks) 34. Which one of the following is a merit of a controlled market system? A. There is unequal distribution of income В. There is freedom of choice C. There is control over externalities (2 marks) D. There is existence of monopolies 35. The following are the merits of adopting labour-intensive technique of production. Which one is NOT? A. It is flexible B. Promotes creation of employment C. Motivates workers D. Saves time (2 marks) 36. Which one of the following is an assumption of indifference curves? Prices are constant A. В. Goods are indivisible C. Consumers are not rational D. Goods are heterogeneous (2 marks)

37.	A firm has a total cost function given as: $TC=156+20Q-3Q^2 +7Q^3$	
	Required: Calculate the marginal cost function of the firm. A. 20-3Q+7Q ² B. 6Q+21Q ² C. 156+20Q-6Q+21Q ² D. 20Q-6Q+21Q ²	(2 marks)
38.	Which one of the following is a role of co-operatives? A. Accepting deposits B. Lender of last resort C. Creation of employment D. Development of affordable housing	(2 marks)
39.	The following factors determine the price of land as a factor of production. Which one does NOT A. Government policy B. Availability of credit C. Climatic conditions D. Development of infrastructure	(2 marks)
40.	 Which one of the following is NOT a property of isoquants? A. They are concave to the origin B. They are asymptotic C. They are negatively sloped D. They are dense 	(2 marks)
41.	Which one of the following statements is a cause of monopoly? A. Collusion of firms B. Competitive advertising C. Super-normal profits D. Credit facilities	(2 märks)
42.	The following are the adjustments to the output method of measuring national income. Which on A. Depreciation B. Indirect taxes C. Value added D. Net factor income from abroad	e is NOT? (2 marks)
43.	Which one of the following factors determine the rate of interest in an economy? A. Availability of credit B. Government policy C. Rate of economic development D. Level of foreign investments	(2 marks)
44.	Which one of the following is NOT a non-monetary policy that is used to control inflation? A. Price control B. Controlling government expenditure C. Output adjustment D. Controlling interest rate	(2 marks)
45.	 Which one of the following is an objective of minimum wage legislation? A. Controlling inflation B. Controlling brain drain C. Controlling corruption D. Controlling rural-urban migration 	(2 marks)
46.	Identify a disadvantage of a country relying on foreign aid. A. Better trade relations B. Increased production C. Improved balance of payments	, ,
	D. Increased overdependence	(2 marks)
		AD31 Page 5 Out of 6

47.	Whic	one of the following is NOT a non-tariff barrier in international trade?	
	A.	Giving subsidies	
	В.	Trade agreements	
	C.	Customs duties	
	D.	Foreign exchange control	(2 marks)
48.	The f	Collowing factors limit the success of economic integration in developing countries. Which one do	es NOT?
	A.	Unfair foreign competition	
	B.	Existence of restrictions	
	C.	Poor infrastructure	
	D.	Level of technological development	(2 marks)
49.	The c	demand function for a firm is given as: P=50	
	Deter	mine the marginal revenue function of the firm.	
	A.	MR=50	
	В.	MR=O.5Q	
	C.	$MR=50Q^2$	
	D.	MR=50Q	(2 marks)
50.	Unen	nployment which occurs when employees are not fully utilised is known as	
	A.	Cyclical unemployment	
	В.	Seasonal unemployment	
	C.	Structural unemployment	
	D.	Disguised unemployment	(2 marks)
	٥.		(=)

PRINCIPLES OF ECONOMICS

MONDAY: 4 December 2023. Morning Paper.

Time Allowed: 3 hours.

This paper has seven (7) questions. Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

OUESTION ONE

(a) List **SIX** factors that determine the efficiency of labour as a factor of production. (6 marks)

(b) Distinguish between "deductive" and "inductive" method of economic analysis. (4 marks)

(c) Explain **FIVE** objectives of demonetisation of a currency. (10 marks)

(Total: 20 marks)

OUESTION TWO

(a) State FIVE exceptions to the law of demand. (4 marks)

(b) Distinguish between "macroeconomic theory" and microeconomic theory". (4 marks)

(c) Identify **SIX** merits of a planned economic system.

(6 marks)

(6 marks)

(d) Explain **SIX** reasons for government involvement in business activities.

(Total: 20 marks)

OUESTION THREE

(a) Explain **FIVE** effects of appreciation of a currency in an economy.

(10 marks)

(b) Explain the term "own price elasticity of demand".

(2 marks)

(c) The following information relates to a consumer in a certain market:

Income (Sh.)	Price of X (Sh.)	Quantity demanded of X (Units)	Price of Y (Sh.)	Quantity demanded of Y (Sh.)
750	28	44	15	87
900	45	60	23	30

Required:

(i) Determine the income elasticity of demand.

(4 marks)

(ii) Outline **FOUR** applications of the concept of elasticity of supply.

(4 marks) (Total: 20 marks)

OUESTION FOUR

(a) Outline **FIVE** demerits of barter system of exchange.

(5 marks)

(b) Highlight **FIVE** disadvantages of a monetary economy.

(5 marks)

(c) With the help of a diagram, explain changes in supply.

(6 marks)

(d) Enumerate **FOUR** characteristics of income consumption curve.

(4 marks)

(Total: 20 marks) AD31 Page 1 Out of 2

QUES (a)	STION FIVE List FIVE factors that might lead to leftward shift in the optimal point of a firm.	(5 marks)
(b)	Analyse THREE limitations of the marginal productivity theory of interest rate determination	on. (6 marks)
(c)	Outline FOUR disadvantages of mobility of labour in an economy.	(4 marks)
(d)	Summarise FIVE benefits of monopoly to an economy.	(5 marks)
QUES (a)	STION SIX Explain the term "debt-to GDP ratio".	(2 marks)
(b)	Describe FIVE forms of foreign aid to developing countries.	(5 marks)
(c)	(i) Explain the term "galloping inflation".	(2 marks)
	(ii) Enumerate FIVE merits of creeping inflation.	(5 marks)
(d)	Discuss SIX causes of unemployment in developing countries.	(6 marks)
QUES (a)	STION SEVEN Outline FOUR components of the balance of payment accounts.	(4 marks)
(b)	Highlight FIVE reasons why the liquidity-money (LM) curve is positively sloped.	(5 marks)
(c)	Explain FIVE methods that may be used to promote exports in developing countries.	(5 marks)
(d)	Using a diagram, describe the circular flow of income of a closed economy with governmen	it intervention. (6 marks) (Total: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 21 August 2023. Morning Paper.

Time Allowed: 3 hours.

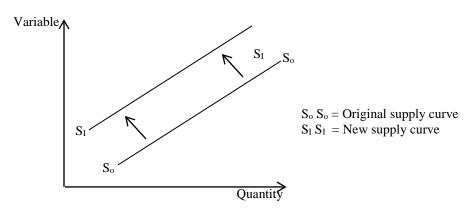

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

OUESTION ONE

(a) Distinguish between "composite demand" and "competitive supply".

(4 marks)

(b) The following diagram relate to a firm in a certain industry:

www.dlopi.co.ke

With reference to the above diagram, highlight **SIX** factors that might have caused the supply curve to shift to the left. (6 marks)

(c) Describe **FIVE** roles of commercial banks in an economy.

(10 marks) (Total: 20 marks)

OUESTION TWO

- (a) Using demand and supply diagrams, explain the effects on the market equilibrium price and quantity transacted for commodity "A" given:
 - (i) An imposition of a per-unit tax on the suppliers of commodity "A". (4 marks)
 - (ii) A reduction in the production cost of commodity "A". (4 marks)
 - (iii) An increase in the price of commodity "B" which is a substitute for commodity "A". (4 marks)
- (b) Explain **FOUR** factors that limit the multiplier effect in an economy. (8 marks)

(Total: 20 marks)

QUESTION THREE

(a) The following information shows the total product of a commodity:

nits of labour	Total product
0	0
1	20
2	50
3	90
4	120
5	140
6	150
7	155

Required:

(i) Compute the marginal product.

(4 marks)

(ii) Draw a diagram to show the relationship between total product and marginal product.

(4 marks)

(b) Outline **SIX** effects of urban unemployment in the economies of developing countries.

(6 marks)

(c) Identify **SIX** factors that influence the level of investment in an economy.

(6 marks)

(Total: 20 marks)

QUESTION FOUR

(a) Highlight **FIVE** features of a firm operating under a monopolistic competitive market.

(5 marks)

(b) The commodity and money markets for a hypothetical economy are represented by the following:

Commodity market:

$$C = 540 + 0.3Y$$

 $I = 75 + 14r$

Money market:

$$\begin{split} M_{DT} &= 0.45Y\\ M_{DS} &= 280-9r\\ M_S &= 750 \end{split}$$

Required:

(i) Derive the IS function.

(5 marks)

(ii) Derive the LM function.

(5 marks)

(iii) The equilibrium rate of interest and equilibrium level of national income.

(5 marks)

(Total: 20 marks)

QUESTION FIVE

(a) Outline **FIVE** characteristics of public goods.

(5 marks)

(b) With the help of a well labelled diagram, explain the concept of producer surplus.

(5 marks)

(c) Explain **FIVE** effects of depreciation of a currency in an economy.

(10 marks)

(Total: 20 marks)

QUESTION SIX

(a) The following data relates to a small hypothetical economy:

	Sh."millions"
Government expenditure	100,000
Private investments	40,000
Autonomous consumption	30,000
Exports	60,000
Imports	70,000

The marginal propensity to consume for this economy is 0.85.

Required:

(i) Calculate the equilibrium level of national income.

(6 marks)

(ii) Explain what would happen to the national income of the above economy if its currency appreciated.

(4 marks)

(b) Enumerate **SIX** positive effects of inflation in an economy.

(6 marks)

(c) Outline **FOUR** assumptions of the credit creation process.

(4 marks) (Total: 20 marks)

QUES	TION SEVEN	
(a)	Summarise SIX factors that limit the effectiveness of trade unions in developing countries.	(6 marks)
(b)	Explain FIVE roles of interest rate in an economy.	(5 marks)
(c)	Outline FIVE causes of the vicious circle of poverty in developing countries.	(5 marks)
(d)	State FOUR assumptions of the law of variable proportions.	(4 marks) (Total: 20 marks)

ward thop cole

PRINCIPLES OF ECONOMICS

MONDAY: 24 April 2023. Morning Paper.

Time Allowed: 3 hours.

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

OUESTION ONE

- (a) (i) Explain the term "free market system" as used in economics. (2 marks)
 - (ii) Explain **FOUR** advantages of a free market system in an economy. (8 marks)
- (b) (i) Distinguish between "price elasticity of demand" and "price elasticity of supply". (4 marks)
 - (ii) Explain **THREE** determinants of price elasticity of demand. (6 marks)

 (Total: 20 marks)

QUESTION TWO

- (a) (i) Using a diagram, explain the concept of indifference curves. (4 marks)
 - (ii) Outline **FOUR** properties of indifference curves. (4 marks)
- (b) Identify **FOUR** assumptions of the law of equi-marginal utility. (4 marks)
- (c) The following information relates to the demand and supply functions of two commodities:

$$Qd_1 = 92 + 2P_2 - 4P_1$$

$$Qs_1 \qquad = \quad -6 + 32P_1$$

$$Qd_2 \ = \ 82 - 3P_2 + P_1$$

$$Qs_2 = -5 + 15P_2$$

Where; $Qd_1 = Quantity demanded of commodity 1$

 $Qs_1 = Quantity$ supplied of commodity 1

 $Qd_2 = Quantity demanded of commodity 2$

 $Qs_2 = Quantity$ supplied of commodity 2

 P_1 = Price of commodity 1

 P_2 = Price of commodity 2

Required:

Determine the equilibrium price and quantity of commodities 1 and 2.

(8 marks) (Total: 20 marks)

OUESTION THREE

- (a) Outline **SIX** merits associated with specialisation of labour. (6 marks)
- (b) Explain **THREE** applications of the concept of consumer surplus in an economy. (6 marks)
- (c) (i) With reference to the theory of production, define the term "mobility of a factor". (2 marks)
 - (ii) Explain **SIX** determinants of the supply of a factor of production in an economy. (6 marks)

(Total: 20 marks)

AD31 Page 1 Out of 3

OUESTION FOUR

- (a) (i) With reference to market structure, define the term "price ring". (2 marks)
 - (ii) State **THREE** factors that could lead to the success of a price ring in business. (3 marks)
- (b) Highlight **FIVE** differences between "monopolistic competition" and "monopoly market structures". (5 marks)
- (c) Hazina, a medium size firm which specialises in the production of Nuts, has its determined cost structure per unit of Nuts produced as follows:

	Sh.
Fixed costs per period	30,000
Variable costs per unit of Nut	20
Selling price per Nut	60

Required:

- (i) Compute the break-even number of Nuts that could facilitate economic profit. (2 marks)
- (ii) Determine the number of Nuts that would give a profit of Sh.100,000. (2 marks)
- (iii) If the price of Nut falls to Sh.40 per Nut, determine the breakeven level of output. (2 marks)
- (d) Explain **FOIUR** factors that are responsible for wage differential between different occupations in an economy.

(4 marks) (Total: 20 marks)

QUESTION FIVE

(a) The following data relates to a firm in the short-run.

Quantity	Total Cost
Units	Sh.
0	100
15	550
25	830
35	1,080
45	1,300
55	1,600
65	2,100
75	2,800
85	3,700
95	4,800
100	6,100

Required:

- (i) Calculate the average fixed cost and average variable cost when the firm produces 65 units. (4 marks)
- (ii) Plot the marginal cost curve. (8 marks)
- (b) Summarise **FOUR** reasons why it is necessary to measure the national income of a country. (8 marks)

(Total: 20 marks)

QUESTION SIX

- (a) With reference to Keynesian theory of money, explain **THREE** motives for people holding wealth in form of money. (6 marks)
- (b) (i) Explain the term "currency devaluation". (2 marks)
 - (ii) State **THREE** advantages of currency devaluation. (3 marks)
- (c) With the aid of a well labelled diagram, distinguish between "shift in supply" and "movement along the supply curve". (4 marks)
- (d) Outline **FIVE** obstacles that hinder economic development in developing countries. (5 marks)

(Total: 20 marks)

AD31 Page 2 Out of 3

QUES	110N 21	LVEN	
(a)	(i)	Explain the concept of unemployment as used in economics.	(2 marks)
	(ii)	State SIX measures that could be adopted by developing countries to reduce unemployment.	(6 marks)
(b)	Outline	e FIVE roles of the central bank in an economy.	(5 marks)
(c)	Identif	y SEVEN factors that limit economic planning in developing countries.	(7 marks)

(Total: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 5 December 2022. Morning Paper.

Time Allowed: 3 hours.

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

QUESTION ONE

(a) Define the term "giffen goods" as used in economics.

(2 marks)

(b) Outline **SIX** assumptions of the production possibility frontier.

(6 marks)

(c) Explain **THREE** limitations of macroeconomics theory.

(6 marks)

(d) State **SIX** effects of price fluctuations in the agricultural sector in an economy.

(6 marks) (Total: 20 marks)

QUESTION TWO

(a) (i) State **FOUR** characteristics of a monopoly market structure.

(4 marks)

- (ii) Using a well labelled diagram, illustrate the longrun equilibrium point of a firm operating in a monopoly market structure. (6 marks)
- (b) Explain **FIVE** arguments in favour of enhancing the mobility of the factors of production.

(10 marks)

(Total: 20 marks)

OUESTION THREE

(a) (i) Define the term "spot exchange rate".

(2 marks)

(ii) Explain **FOUR** advantages of a managed floating exchange rate.

(8 marks)

(b) The following represents the demand and supply functions for a commodity in a certain market:

$$Q - 4P = -5$$

$$Q - 13 = -5P$$

Required:

(i) Determine the demand function and supply function.

(5 marks)

(ii) Determine the equilibrium price and equilibrium quantity.

(5 marks)

(Total: 20 marks)

QUESTION FOUR

(a) State **FOUR** characteristics of a mixed economy.

(4 marks)

(b) Suggest **SIX** determinants of labour supply in an economy.

(6 marks)

(c) Discuss **FIVE** monetary policies used by central bank to control the amount of money in circulation in an economy. (10 marks)

(Total: 20 marks)

OUESTION FIVE

- (a) Using a diagram, explain the law of decreasing return to scale. (6 marks)
- (b) State **EIGHT** negative effects of inflation in an economy. (8 marks)
- (c) With reference to national income, summarise **THREE** limitations of the multiplier. (6 marks)

(Total: 20 marks)

QUESTION SIX

(a) The economic transaction figures of Pwato Republic in thousands of shillings are as follows:

Sector	Total output	Intermediate purchases
Agricultural	56,000	33,000
Manufacturing	97,000	64,000
Service	72,000	46,000

Required:

- (i) Compute the Gross National Product of Pwato Republic, using the value added approach of National Income. (2 marks)
- (ii) Calculate the Net Domestic Product at market prices and factor cost, if the indirect taxes and fixed assets depreciation is equal to 20,000 and 25,000 respectively. (4 marks)
- (b) Suggest **SIX** policy measures that might be implemented by developing countries in order to accelerate their economic growth and development. (6 marks)
- (c) State **FOUR** reasons why unemployment is a major policy issue in developing countries. (4 marks)
- (d) Explain **FOUR** challenges facing small scale industries in developing countries. (4 marks)

 (Total: 20 marks)

QUESTION SEVEN

- (a) Using a diagram, show the indifference curves for complimentary and perfect substitute goods. (6 marks)
- (b) Distinguish between "own price elasticity of demand" and "cross elasticity of demand". (6 marks)
- (c) Explain **TWO** exceptions of the law of diminishing marginal utility. (4 marks)
- (d) Outline **FOUR** factors that limit the effective implementation of fiscal policy in developing countries. (4 marks) (**Total: 20 marks**)

.....

PILOT PAPER

PRINCIPLES OF ECONOMICS

DECEMBER 2021. Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

QUESTION ONE

(a) Explain the concept of "Scarcity, Choice and Opportunity cost as applied in economics. (3 marks)

(b) State and briefly explain four main factors that may cause a fall in the supply of a good in the market. (4 marks)

(c) Highlight the causes of increased cost of living in developing countries. (5 marks)

(d) With the aid of a well-labeled diagrams, distinguish between the effects of price floors and price ceilings. (8 marks)

(Total: 20 marks)

QUESTION TWO

(a) The data below represents the units consumed of a commodity at different income levels and price in the market:

Quantity	Income	Price	
(Units)	(Sh.)	(Sh.)	
100	5000	16	
120	6000	16	

Required

(i) Compute income elasticity of demand through the arcelasticity method.

(2 marks)

(ii) Discuss the applications of the concept of elasticity in business and economic policy decisions making.

(6 marks)

(b) The following information relates to a firm in a certain market. A monopolist sells its output in two distinct markets with each market completely sealed off from each other.

The demand for the firms output in each market is given by the following equations:

P1=52-5Q1

P2=72-6Q2

The total cost function of the firm is given by the following function:

TC=50+12Q

Required:

(i) The firms' profit maximising level of output.

(6 marks)

(ii) Determine the corresponding prices.

(2 marks)

(iii) Outline the advantages of Price Discrimination.

(4 marks)

OUESTION THREE

(a) (i) Define an indifference curve.

(2 marks)

(ii) Explain four applications of the indifference curve analysis.

(8 marks)

AD31 Page 1 Out of 2

		AD31 Page 2 Out of 2
(c)	With the aid of a well labeled diagram describe the relationship between the short run an	(4 marks) (Total: 20 marks)
(b)	Outline the factors that could determine the level of national income of a country.	(6 marks)
	Required (i) Explain the economic interpretation of the parameters a,b,d and t. (ii) Discuss the three approaches used in measuring the national income of a countr same estimate.	(4 marks) by and showwhy they give the (6 marks)
QUES (a)	Assume the following information represents the National Income Model of an 'Utopian $Y = C + I + G$ $C = a + b(Y - T)$ $T = d + tY$ $I = IO$ $G = GO$ Where: $a > 0; 0 < b < 1$ $d > 0; 0 < t < 1$ $T = Taxes$ $I = Investment$ $G = Government Expenditure$	economy.
(c)	Explain the relationship between the Marginal Product (MP) and the Total Product (TP)) curve. (6 marks) (Total: 20 marks)
(b)	Enumerate the differences between "monopoly" and "Monopolistic" competition.	(6 marks)
	 Where C = Cost measured in shillings, while Q = quantity measured in kilogrammes. (i) Compute the total cost and average total costs at output level of 10 and 11 kilog (ii) Determine the Marginal cost of the 12th Kilogramme. 	rammes. (4 marks) 4 marks)
QUES (a)	STION SIX The total cost equation in the production of bacon at some hypothetical factory is: $C = 1$	$000 + 100Q - 15Q^2 + Q^3.$
(c)	Highlight some of the economic implications of a rising trend in the rural-urban migra measures.	ation and the possible remedy (8 marks) (Total: 20 marks)
(b)	Explain the difference between "transfer earnings" and "economic rent" of a factor of p	production. (2 marks)
QUES (a)	STION FIVE (i) Explain the concept of credit creation by commercial banks. (ii) Highlight the factors that limit the credit creation process by commercial banks	(2 marks) s. (6 marks)
(b)	With the aid of relevant diagrams demonstrate the short run equilibrium for a firm under per	rfect condition. (12 marks) (Total: 20 marks)
(a)	(i) Explain the law of variable proportions.(ii) Discuss the key assumptions to the law of variable proportions.	(2 marks) (6 marks)
QUE	STION FOUR	` ,
(b)	With the aid of a well labelled diagram distinguish between income and substitution effection (i) Case of a normal good. (ii) Case of an inferior good.	ects of a price change. (5 marks) (5 marks) (Total: 20 marks)

(b)

PRINCIPLES OF ECONOMICS

MONDAY: 30 August 2021. Time Allowed: 3 hours. Answer any FIVE questions. ALL questions carry equal marks. **QUESTION ONE** List five advantages of a controlled market system. (a) (6 marks) (b) Distinguish between the law of "diminishing returns" and the "law of return to scale". (4 marks) (c) Explain three stages of production as implied by the law of diminishing returns. (6 marks) (d) Suggest four policy measures that might be adopted by developing countries to reduce the level of unemployment. (4 marks) (Total: 20 marks) **QUESTION TWO** (a) (i) Explain the term "diminishing marginal utility". (2 marks) (ii) State three examples of exceptions to the law of diminishing utility. (3 marks) (b) Discuss five factors that are responsible for wage differentials within the same occupation. (10 marks) Summarise five factors that influence the cost behaviour of a firm. (c) (5 marks) (Total: 20 marks) **QUESTION THREE** With the aid of well labelled diagrams, distinguish between the following set of terms: (a) (i) Change in supply and change in quantity supplied. (4 marks) (ii) Change in demand and change in quantity demanded. (4 marks) (b) List six ways a government could influence the allocation of resources in a country. (6 marks) (c) Identify six sources of monopoly powers. (6 marks) (Total: 20 marks) **QUESTION FOUR** Identify seven causes of demand pull inflation. (7 marks) (a) (b) A firm's market demand and total cost functions are given as: 50 - 0.5QTC $10 + 20Q + Q^2$

Where; P

TC

Price Quantity

Total cost

	Requi	red:	
	(i) 1	The level of output which maximises profit.	(4 marks)
	(ii)	The total profit of the firm.	(4 marks)
	(iii)	Price at which the firm maximises profit. (Total	(5 marks) tal: 20 marks)
QUE! (a)	STION F Distin	IVE guish between "injections" and "withdrawals" as applied in national income.	(4 marks)
(b)		se four reasons why gross national product (GNP) figure is lower than gross domestic produc eloping countries.	t (GDP) figure (4 marks)
(c)	Discus	ss four problems encountered when measuring national income.	(8 marks)
(d)	Distin	guish between "average propensity to consume" and "average propensity to save". (Total	(4 marks) tal: 20 marks)
QUES (a)	STION S Explai	IX in six reasons why external debt management is a major policy issue in developing countries.	(6 marks)
(b)	Summ	parise six factors that could limit economic planning in developing countries.	(6 marks)
(c)	State 6	eight roles of agriculture in economic development. (Total	(8 marks) al: 20 marks)
QUES (a)	STION S Explai	EVEN in the following terms:	
	(i)	Composite demand.	(2 marks)
	(ii)	Competitive supply.	(2 marks)
(b)	With t	he aid of relevant diagrams, explain the term market demand.	(6 marks)
(c)		uantity demanded of a commodity is 50 units when the price is Sh.15. However, when the quantity demanded decreases to 30 units.	price rises to
	Requi		(2 1)
	(i)	Calculate the point price elasticity of demand.	(3 marks)
	(ii)	Interpret your results in (c) (i) above.	(2 marks)

Explain five roles of commercial banks in an economy.

(d)

(5 marks) (Total: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 17 May 2021. Time Allowed: 3 hours. Answer any FIVE questions. ALL questions carry equal marks. **QUESTION ONE** Outline six factors that might limit consumer sovereignty. (a) (6 marks) **(b)** Summarise six demerits of a free market economic system. (6 marks) (c) The following information relates to the quantity consumed of commodity X at different prices and income levels of a consumer: Quantity Price (Sh.) Income (Sh.) 120 units 160 60,000 100 units 180 50,000 Required: Determine the price and income elasticity of demand of commodity X. (i) (6 marks) 👌 (ii) On the basis of your results in (c) (i) above, explain the nature of commodity X. (2 marks) (Total: 20 marks) **QUESTION TWO** Analyse three exceptions to the law of supply. (a) (6 marks) (b) Using relevant examples, explain two leakages from the circular flow of income. (4 marks) (c) Identify six factors that might lead to a rightward shift in the demand curve. (6 marks) (d) State four conditions for consumer rationality as used in economics. (4 marks) (Total: 20 marks) **OUESTION THREE** Argue six cases against the monopoly market structure. (a) (6 marks) (b) Outline four features of the oligopolistic market structure. (4 marks) (c) The following data represents the demand function and total cost function of a monopolist: 140 - 2qWhere: P is the price TC $10 + 5q^2$ q is the quantity TC is the total cost Required: Compute the quantity, price and profit maximising level of output of the monopolist. (6 marks) (d) Summarise two reasons why the marginal cost curve cuts the average cost curve at the lowest point. (4 marks)

> AD31 Page 1 Out of 2

(Total: 20 marks)

QUE	STION FOUR	
(a)	Explain six characteristics of money.	(6 marks)
(b)	Analyse six negative effects of inflation to an economy.	(6 marks)
(c)	In relation to the theory of production, illustrate the shutdown point for a firm.	(6 marks)
(d)	Explain the term "cross elasticity of demand" as used in economics. (Total	(2 marks) d: 20 marks)
QUE	STION FIVE	
(a)	Summarise five attributes of economic development in a country.	(5 marks)
(b)	Suggest six policy measures that the government might use to promote economic development in a co	ountry, (6 marks)
(c)	Analyse five factors that could be responsible for wage differentials between occupations.	(5 marks)
(d)	Differentiate between "marginal revenue product of labour" and "average revenue product of labour" (Total	. (4 marks) al: 20 marks)
OUE:	STION SIX	
(a)	Explain five advantages of international trade to a country.	(5 marks)
(b)	Describe five methods of trade restrictions in international trade.	(5 marks)
(c)	State five measures that might be put in place to control the level of budget deficit in least developed	countries. (5 marks)
(d)	Outline five factors that could determine the level of national income in a country. (Total	(5 marks) d: 20 marks)
OUES	STION SEVEN	
(a)	State four factors that would limit the effectiveness of fiscal policy instruments in developing countrie	es. (4 marks)
(b)	Describe five effects of a decrease in money supply in an economy.	(5 marks)
(c)	Using Phillips curve, explain the statistical relationship between unemployment and inflation rate.	(6 marks)
(d)	Suggest five advantages of economies of scale to a firm. (Total	(5 marks)

PRINCIPLES OF ECONOMICS MONDAY: 23 November 2020. Time Allowed: 3 hours. ALL questions carry equal marks. Answer any FIVE questions. **QUESTION ONE** Explain four benefits of studying economics. (4 marks) Outline five applications of the law of diminishing marginal utility in decision making. (5 marks) (b) (c) The demand for commodity X in a certain market has gone down. Explain six factors that might have caused the decline. (d) With reference to the theory of production, identity five disadvantages of adopting capital intensive technique of (5 marks) production. (Total: 20 marks) **QUESTION TWO** (a) Distinguish between "price elasticity of demand" and "price elasticity of supply". (4 marks) With reference to decision making, discuss three practical applications of the concept of price elasticity in an (b) economy. The total revenue and total cost function of a firm operating under a perfectly competitive market is given below: (c) $TR = 42Q - 0.5Q^2$ TC = 40Q - 120Q + 150TR is the total revenue. TC is the total cost. Q is the quantity. Required: Determine the profit maximising level of output (Q). (d) Outline six diseconomies of scale to a firm. (6 marks) (Total: 20 marks) **OUESTION THREE** Suggest four policy measures that a government might put in place to enhance occupational mobility of labour in an (8 marks) economy. (8 marks) Analyse four factors that determine the demand for labour in an economy. (4 marks) Outline four factors that could lead to decreasing returns to scale in the production process. (c) (Total: 20 marks)

(a)	The fol	llowing information relates to a hypothetical economy of country X in billions of shillings:	
		C = 150 + 0.75Y.	
		I = 75. G = 20.	
		Where: C = Consumption expenditure. I = Investment expenditure. G = Government expenditure.	
	Require The eq	red: uilibrium level of national income.	(4 marks)

PRINCIPLES OF ECONOMICS

TUESDAY: 26 November 2019. Time Allowed: 3 hours. Answer any FIVE questions. ALL questions carry equal marks. **OUESTION ONE** Distinguish between "microeconomics" and "macroeconomics". (a) (4 marks) (b) Explain six reasons why government might reintroduce price control mechanism in an economy. (6 marks) (c) Discuss five characteristics of a mixed economic system. (10 marks) (Total: 20 marks) **OUESTION TWO** Identify five limitations of barter trade. (a) (5 marks) (b) Explain five factors that determine the price elasticity of demand of a commodity. (5 marks) (c) State five applications of indifference curve analysis in an economy. (5 marks) (d) Using a well-labelled diagram, explain the trade off between work and leisure. (5 marks) (Total: 20 marks) **QUESTION THREE** The demand and supply function of a given commodity are represented by: Qd 126 - 9pOs 18 + 3pWhere Qd is the quantity demanded. Qs is the quantity supplied. Required: The equilibrium price of the commodity. (3 marks) **(i)** (ii) The equilibrium quantity of the commodity. (2 marks) (b) . Using a well labelled diagram, explain the relationship between the long run and short run average cost curves. (5 marks) (c) State four assumptions of the law of diminishing returns. (4 marks) (d) Explain three reasons why the demand curve slopes downwards. (6 marks) (Total: 20 marks)

QUEST (a)	ION FO	DUR four causes of cost push inflation.	(4 marks)
(b)	Explain	the impact of inflation on the following:	
	(i)	Consumers.	(2 marks)
•	(ii)	Creditors.	(2 marks)
	(iii)	Savings.	(2 marks)
(c)	Disting	guish between "absolute advantage" and "comparative advantage" as applied in international trade.	(4 marks)
(d)		e six corrective measures that developing countries might institute to reduce persistent deficits in the nent account. (Total	their balance (6 marks) I: 20 marks)
QUEST (a)		IVE y four characteristics of money as a medium of exchange.	(4 marks)
(b)	Discus	s three reasons why individuals hold money according to John M. Keynes.	(6 marks)
(c)	Explai	n ten challenges faced by economic planners in developing countries. (Tota	(10 marks) l: 20 marks)
QUEST	FION SI Summ	IX arise five roles of non bank financial institutions in an economy.	(5 marks)
(b)	Explai	n five factors that determine the efficiency of labour as a factor of production.	(5 marks)
(e)	Discus	s five reasons why it is necessary to estimate the national income of a country. (Total	(10 marks) I: 20 marks)
QUEST (a)	ΓΙΟΝ S Disting	EVEN guish between "economic growth" and "economic development".	(4 marks)
(b)	Highli	ght seven factors that could contribute to low economic growth rate in most developing countries.	(7 marks)
(c)	Using	a well labelled diagram, explain the phenomenon of vicious cycle of poverty.	(4 marks)
(d)	Summ	arise five policy measures that could be implemented to combat poverty in developing countries. (Tota	(5 marks) d: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 20 May 2019.

Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

OUESTION ONE

Distinguish between "positive economics" and "normative economics". (a)

(4 marks)

Explain five roles of the government in resource allocation in a country. (b)

(5 marks)

Outline five factors that determine price elasticity of supply in the market. (c)

(5 marks)

Identify six demerits of a planned economic system. (d)

(6 marks)

(Total: 20 marks)

QUESTION TWO

Summarise three exceptions to the law of diminishing marginal utility. (a)

(3 marks)

Distinguish between a "giffen good" and an "inferior good". (b)

(4 marks)

Explain five advantages to an economy of mobility of factors of production. (c)

(5 marks)

With the aid of diagrams, differentiate between a "change in demand" and a "change in quantity demanded". (d)

(8 marks)

(Total: 20 marks)

OUESTION THREE

The following information relates to a commodity in a certain market: (a)

10 - 0.2Q

P 50 - 0.50

P is the price of the commodity. Where:

Q is the quantity demanded of the commodity.

Required:

Giving reasons, determine the demand and supply functions.

(4 marks)

(ii) The equilibrium price and quantity of the commodity. (4 marks)

A firm operating under perfect competition has a total cost function represented by: (b)

$$TC = 75 + 15Q$$

Where: TC is total cost.

Q is quantity.

Required:

The unit price of the firm's output.

(2 marks)

(c)	Explain (he following terms as used in economics:	
	·	Composite supply.	(2 marks)
	(ii)	Complementary demand.	(2 marks)
(d)	Highligh	six roles of foreign aid in the economic development of developing countries.	(6 marks) (Total: 20 marks)
QUES (a)	TION FO	JR ive limitations of the ordinalist approach to the study of consumer behaviour.	(5 marks)
(b)	With refe	rence to the theory of costs, highlight five factors that lead to external economies of sca	ile. (5 marks)
(c)	(i)	Explain the term "inflation" as used in economics.	(2 marks)
	(ii)	Summarise four causes of inflation.	(4 marks)
(d)	Explain t	he relationship between the multiplier and the accelerator.	(4 marks) (Total: 20 marks)
QUES (a)	TION FIV	E reasons for the deteriorating terms of trade for developing countries.	(5 marks)
(b)	Explain	our forms of economic integration.	(4 marks)
(c)	Identify:	six effects of unemployment in an economy.	(6 marks)
(d) .	Highligh	five functions of the International Monetary Fund (IMF).	(5 marks) (Total: 20 marks)
QUES (a)		Tive reasons why an increase in national income may not necessarily imply improved sin a country.	standards of living for (5 marks)
(b) ·	Using an	illustration, explain the equilibrium level of national income of an open economy.	(5 marks
(c)	Highligh	t four challenges associated with the income approach of measuring national income.	(4 marks
(d)	Outline s	ix functions of the central bank in a country.	(6 marks (Total: 20 marks
QUES (a)	TION SEV Explain	YEN Tive factors that determine the value of money in an economy.	(5 marks
(b)	Examine	five limitations of the monetarist theory of money supply.	(5 marks
(c)	Highligh	t six advantages of monopolies in an economy.	(6 marks
(d)	Outline 1	our factors that might lead to occurrence of a market disequilibrium for a product.	(4 marks (Total: 20 marks)

MONDAY: 27 November 2017, Time Allowed: 3 hours. Answer any FIVE questions. ALL questions carry equal marks. QUESTION ONE Highlight four factors that promote the existence of monopolies in an economy. (a) (4 marks) (b) Enumerate four contributions of non banking financial institutions in an economy. (4 marks) Outline six problems associated with the following approaches of measuring national income: (c) (i) The value added approach. (6 marks) (ii) The expenditure approach. (6 marks) (Total: 20 marks) QUESTION TWO Distinguish between "arc elasticity" and "point elasticity" of demand. (a) (4 marks) (b) Summarise four objectives of trade unions. (4 marks) Using indifference curve analysis, illustrate the case for the following types of goods: (c) (i) Perfect substitutes. (6 marks) (ii) Complementary goods. (6 marks) (Total: 20 marks) QUESTION THREE Highlight five limitations of indifference curve analysis. (5 marks) (a)

(c)	The data below relate to the demand and supply of a certain commodity:

Argue five cases against specialisation of trade.

Unit Price	Quantity demanded	Quantity supplied
(Sh.)	(Units)	(Units)
5	160,000	40,000
10	150,000	52,000
15	138,000	60,000
20	105,000	80,000
25	96,000	125,000
30	65,000	138,000
35	50,000	180,000

Required:

(b)

The equilibrium price and quantity of the commodity using the graphical method.

(5 marks)

(10 marks)

(Total: 20 marks)

(b) Outline six limitations of a monopoly market structure in an economy. (6 marks) (c) Discuss five barriers to occupational mobility of labour as a factor of production. (10 marks) QUESTION FIVE (a) The following information relates to the national income statistics of a hypothetical economy in billions of shillings: Gross national product (at market price) 777 Depreciation allowance 143 Subsidies 26 Indirect taxes 133 Requirect: (i) Net national product at market price. (2 marks) (ii) Net national product at factor cost. (2 marks) (iii) Net national product at factor cost. (2 marks) (b) Examine three motives for holding money as advanced by Keynes. (6 marks) (c) Discuss ten causes that could lead to high cost of living in a developing country. (10 marks) QUESTION SIX (a) Using an appropriate diagram, analyse the relationship between the marginal product curve and the average product curve. (b) With the aid of a well labelled diagram, explain how monetary policy could be used to control inflationary gap in an economy. (c) Describe five instruments of monetary policy that could be used to control the level of money supply in an economy. (Total: 20 marks) QUESTION SEVEN (a) Outline seven challenges encountered by developing countries when implementing development plans. (7 marks) The following information relates to the commodity and money markets of a certain closed economy in billions of shillings: Y = C+1 C = 100 + 0.5Y I = 500 - 10T M _{DST} = 0.25Y M _{DSS} = 300 - 20T M _{SS} = 400 Where: Y is the national income C is the consumption function I is the investments function r is the react of interest M _{DSS} is the speculative demand for money M _{DSS} is the speculative demand for money in the capable for the capab	QUES (a)	STION F Explai		curve always intersects the average cost curve at the lowest

					AD31 Page 1 Out of 2

The following data relate to the economy of country X: (c) Sh.billion Consumption 620 Investment 230 Government purchases 120 **Exports** 610 Imports 490 Required: Gross domestic product (GDP) of country X. (2 marks) (d) Discuss five determinants of money supply in an economy. (10 marks) (Total: 20 marks) **QUESTION FIVE** (a) With the aid of well labelled diagrams, explain: (i) The short-run normal profit of a firm operating in a perfectly competitive market structure. (4 marks) (ii) The short-run supernormal profit of a firm operating in a perfectly competitive market structure. (4 marks) **(b)** Explain four effects of inflation on the key functions of money. (4 marks) Discuss four differences between commercial banks and non-banking financial institutions. (c) (8 marks) (Total: 20 marks) QUESTION SIX Highlight five limitations of a planned economy. (5 marks) **(b)** Outline eight circumstances under which the law of demand is violated. (8 marks) (c) With the aid of a diagram, explain the shut-down price of a firm in perfect competition. (7 marks) (Total: 20 marks) OUESTION SEVEN Summarise six limitations of using national income statistics in comparing the living standards of two countries. (6 marks) (b) Outline six objectives of the monetary policy. (6 marks) (c) A producer of music videos is able to sell the music videos to individual consumers and to television stations. The producer is able to separate the two types of consumers and sell them the same product at different prices. The following are the demand curves for these two markets: Television stations: $Q_i = 420 - 2P_i$ $Q_2 = 1,020 - 4P_2$ Individual consumers: The total cost function is given as: C = 2,000 + 20Q $Q = Q_1 + Q_2$ Where: $Q_1 = Quantity demanded by television stations.$ Q_2 = Quantity demanded by individual consumers. P_1 = Price charged to television stations. P_2 = Price charged to individual consumers. Required: The price charged and quantity demanded in each market. (8 marks) (Total: 20 marks)

ATD LEVEL III

PRINCIPLES OF ECONOMICS

MONDAY: 21 November 2016.

Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

QUESTION ONE

(a) Distinguish between "positive economics" and "normative economics".

(4 marks)

(b) Summarise eight benefits of specialisation of trade.

(8 marks)

(c) The market for a certain commodity is represented by the following functions:

$$Q + \frac{1}{3}P = 10$$

$$O + 15 = 4P$$

Where;

P is the price of the commodity.

Q is the quantity supplied.

Required:

The equilibrium price and quantity of the commodity.

(8 marks)

(Total: 20 marks)

OUESTION TWO

(a) Outline six factors that lead to a leftward shift in the supply curve.

(6 marks)

(b) Describe four applications of the indifference curve analysis.

(4 marks)

(c) Distinguish between "inelastic demand" and "inelastic supply" for a commodity.

(4 marks)

(d) Explain six limitations of consumer sovereignty.

(6 marks)

(Total: 20 marks)

QUESTION THREE

(a) Outline two properties of isoquant curves.

(2 marks)

(b) Explain four factors that determine demand for labour in an economy.

(4 marks)

(c) Justify the need for negotiation of higher wages by trade unions.

(4 marks)

(d) Discuss five factors that are responsible for wage differentials within the same occupation.

(10 marks)

(Total: 20 marks)

QUESTION FOUR

(a) With reference to national income, explain the concept of multiplier as applied in an economy.

(4 marks)

(b) Summarise six problems associated with the product approach of measuring national income.

(6 marks)

(c) With the aid of a well labelled diagram, explain the circular flow of income for a closed economy with government intervention. (6 marks)

(d) Explain four arguments in favour of development planning in developing countries.

(4 marks)

(Total: 20 marks)

QUE	ESTION FIVE	
(a)	A plastic manufacturing firm sells 100 units of its product at a price of Sh.10 each and has a fixed marginal cost of Sh.4.	cost of Sh.200 and

Net interest

AD31 Pilot Paper Page 1 Out of 2

	Requ (i)	ired: Gross Domestic Product.	(2 marks)
	(ii)	Net Domestic Product at factor cost.	(2 marks)
	(iii)	Net Domestic Product at market prices.	(2 marks)
	(iv)	Gross National Product	(2 marks)
	(v)	National Income.	(2 marks)
(c)	Using	appropriate examples, distinguish between "economic growth" and "economic development".	(4 marks) (Total: 20 marks)
QUE (a)	STION (i)	SIX State the law of diminishing returns.	(2 marks)
	(ii)	Using an appropriate diagram, discuss the three stages of production according to this law.	(8 marks)
(b)	Expla	tin five features of a free market economy as a way of allocating resources among alternative us	es. (10 marks) (Total: 20 marks)
QUE (a)		N SEVEN ly explain four stages of a trade cycle.	(8 marks)
(b)	The f	following are economic functions for company ABC Limited:	
		$Qn = 48 - 2P^2$	
		$Qb = 6p^2 - 8P$	
	Wh	ere P represents price and Q is the quantity.	
	•	ired: Giving reasons, identify the demand curve and the supply curve	(4 marks)

Determine the price and the quantity at which the market is at equilibrium.

Highlight two economies of scale enjoyed by a firm as a result of large scale production.

(ii)

(c)

(6 marks)

(2 marks)

(Total: 20 marks)

PRINCIPLES OF ECONOMICS

MONDAY: 1 August 2022. Morning paper.

Time Allowed: 3 hours.

Answer any FIVE questions. ALL questions carry equal marks. Do NOT write anything on this paper.

OUESTION ONE

- Distinguish between "microeconomics" and "macroeconomics". (4 marks) (a)
- State five advantages of a planned economic system. (b) (5 marks)
- (c) Identify six factors that determine the total market demand for a product. (6 marks)
- (d) Describe five types of price elasticity of demand. (5 marks) (Total: 20 marks)

QUESTION TWO

(b)

- State the law of diminishing returns as applied in production functions. (2 marks)
- Illustrate and explain the three stages associated with the law of variable proportions. (9 marks)
- Using the Phillip's curve, explain the relationship between unemployment and inflation. (5 marks) (c)
- (d) Outline four factors that could lead to an increase in the cost of production in a firm. (4 marks) (Total: 20 marks)

OUESTION THREE

Excel products limited deals in the production of a product branded "Excellent". The Average Revenue and Total Cost functions of "Excellent" are given by:

$$AR = 40 - 10x$$

 $TC = X^3 + 2X^2 + 16X + 10$

Where:

AR = Average Revenue function (Sh. "millions")

TC = Total Cost function (Sh. "millions")

X = Number of units of "Excellent" produced and sold.

Required:

- The total profit function. (4 marks) (i)
- (ii) The maximum profit. (6 marks)
- (b) (6 marks) Explain six reasons why existence of monopolies is beneficial to an economy.
- (c) State four disadvantages of currency devaluation. (4 marks)

(Total: 20 marks)

- (a) Distinguish between "Gross Domestic Product" (GDP) and "Gross National Product" (GNP). (4 marks)
- (b) Summarise five assumptions of the circular flow of income model. (5 marks)
- (c) Identify seven factors that influence the size of a country's national income. (7 marks)
- (d) State four problems associated with the income approach of Measuring National Income. (4 marks)

(Total: 20 marks)

OUESTION FIVE

- (a) Differentiate between "normal wages" and "real wages". (4 marks)
- (b) Explain three tools of monetary policy used to control money supply in an economy. (6 marks)
- (c) Describe four conditions necessary for consumer rationality. (4 marks)
- (d) Summarise six benefits of adopting a labour intensive technique of production in developing countries. (6 marks)

 (Total: 20 marks)

OUESTION SIX

- (a) Summarise six characteristics of money. (6 marks)
- (b) Explain four functions of commercial banks in an economy. (4 marks)
- (c) Outline four reasons why payment of interest to providers of loanable funds is justified. (4 marks)
- (d) Discuss three criticisms levelled against the classical theory of interest rate determination. (6 marks)

 (Total: 20 marks)

OUESTION SEVEN

- (a) Identify four economic implications of high rate of rural to urban migration in developing countries. (4 marks)
- (b) Summarise six arguments against reliance on external donor funding for a country. (6 marks)
- (c) Outline five factors that contribute to underutilisation of resources in developing countries. (5 marks)
- (d) The following information relates to the consumption of a commodity Q in a certain market.

Price of Q (Ksh.)	Quantity demanded of Q (Units)
5	800
10	750
15	700
20	650
25	600
30	550
35	500
40	450

Required:

- (i) Determine the arc price elasticity of demand as price changes from Sh.25 to Sh.30. (3 marks)
- (ii) Interpret your results in (d) (i) above. (2 marks) (Total: 20 marks)

......

INCIPLES OF ECONOMICS

PRINCIPLES OF ECONOMICS

WEDNESDAY: 15 December 2021.

Time Allowed: 3 hours.

Answer any FIVE questions.

ALL questions carry equal marks.

QUESTION ONE

(ii)

(c)

(a) Outline five features of a planned market economy.

(5 marks)

 $\hbox{(b)} \qquad \hbox{(i)} \qquad \hbox{Explain "the law of variable proportions" as applied in the theory of production.}$

(2 marks) (5 marks)

(i) Define the term "elasticity of demand".

(2 marks)

(ii) Enumerate six factors that determine the elasticity of demand of a commodity.

Highlight five assumptions of the law of variable proportions.

(6 marks) (Total: 20 marks)

QUESTION TWO

- (a) With the aid of diagrams, distinguish between "a movement along the supply curve" and 'a shift in the supply curve". (6 marks)
 - (ii) List six factors that might lead to a rightward shift in the supply curve of a commodity. (6 marks)
- (b) Analyse four effects of minimum price controls in an economy.

(8 marks)

(Total: 20 marks)

QUESTION THREE

(a) Outline five features of a monopsony market structure.

(5 marks)

(b) Discuss four challenges that might be encountered by governments in the implementation of economic plans.

(8 marks)

(c) The following information relates to a certain commodity market:

$$Q_d = x_0 - x_1 P$$

$$Q_s = Y_0 + Y_1 P$$

Where: Qd is the quantity demanded

Qs is the quantity supplied

P is the price

X₀ and Y₀ are constants

X₁ and Y₁ are variables

Required:

(i) The equilibrium price.

(3 marks)

(ii) The equilibrium quantity.

(4 marks) (Total: 20 marks)
