

ACCOUNTING TECHNICIANS DIPLOMA (ATD)

LEVEL II

PRINCIPLES OF MANAGEMENT

MONDAY: 1 December 2025. Afternoon Paper.

Time Allowed: 2 hours.

This paper consists of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

Use the information below to answer Question 1 to Question 3.

- (i) Approves a major capital expenditure after evaluating competing bids.
- (ii) Represents the organisation by presiding over a county prize-giving ceremony.
- (iii) Collects and analyses competitor information, then briefs departmental heads through a weekly report.
- (iv) Negotiates and resolves a dispute between the organisation and a supplier.

1. Which one of the above actions is an example of Mintzberg's decisional roles?
A. (i) and (iv)
B. (ii) only
C. (iii) and (iv)
D. (i) only (2 marks)

2. Which one of the above actions is an example of Mintzberg's informational roles?
A. (iii) only
B. (i) and (iii)
C. (ii) and (iii)
D. (ii) only (2 marks)

3. Which action is an example of an interpersonal role?
A. (i)
B. (ii)
C. (iii)
D. (iv) (2 marks)

4. An operations manager encourages employee's participation in decision-making while assuming people are self-motivated, creative and seek responsibility. This belief aligns with _____.
A. Theory Y
B. Theory X
C. Bureaucratic model
D. Total quality management (2 marks)

5. Which one of the following scenarios **BEST** illustrates Fayol's principle of "unity of direction"?
A. A department with one manager pursuing a shared objective
B. An employee reporting to two supervisors at the same time
C. Workers forming informal groups to resist management rules
D. A Chief Executive Officer (CEO) delegating all decision-making to subordinates (2 marks)

6. Which one of the following statements **BEST** differentiates strategic planning from tactical planning?
A. Strategic planning is short-term, while tactical planning is long-term
B. Strategic planning focuses on specific departments, while tactical planning focuses on the organisation as a whole
C. Strategic planning defines the overall direction, while tactical planning translates strategies into medium-term actions
D. Strategic planning is repetitive, while tactical planning is non-repetitive (2 marks)

7. A modern tech company intends to apply classical theories however it faces criticism from employees who demand flexibility, autonomy and participation in decision-making. Which one of the following limitations of classical theories does this highlight?
A. Lack of emphasis on efficiency
B. Overemphasis on hierarchy and structure
C. Failure to apply incentives
D. Weakness in technological adaptation (2 marks)

8. Which one of the following statements **BEST** explains why decision-making at the top level is considered complex?
A. It is routine and repetitive
B. It is highly structured and predictable
C. It only focuses on short-term market trends
D. It requires balancing multiple stakeholders' interests under uncertainty (2 marks)

9. Which one of the following statements **BEST** describes the purpose of internal business environment analysis?
A. To understand only external threats in the market
B. To assess organisational strengths and weaknesses
C. To forecast macroeconomic trends
D. To monitor competitors' strategies (2 marks)

10. Which one of the following statements explains why planning may not ensure organisational success, even when implemented perfectly?
A. Planning ignores lower-level participation
B. Planning cannot fully control external environmental forces
C. Planning consumes excessive resources
D. Planning only applies to operational activities (2 marks)

11. In a software company, programmers, testers and designers are grouped into separate teams before being assigned leaders. Which one of the following sequences is represented?
A. Delegation → Reporting → Identification of work
B. Assignment of duties → Delegation → Departmentalisation
C. Identification of work → Departmentalisation → Assignment of duties
D. Reporting relationships → Identification → Delegation (2 marks)

12. In a changing environment, businesses that successfully adapt are often characterised by _____.
A. rigidity and strict adherence to old systems
B. overdependence on a single product line
C. flexibility, innovation and proactive scanning of trends
D. ignoring competitor strategies (2 marks)

13. The principle of efficiency in organising emphasises that _____.
A. the cost of organising should not exceed the benefits derived
B. every manager must supervise only one subordinate
C. authority must always be centralised
D. plans should remain rigid to avoid confusion (2 marks)

14. In supervision, the principle of "span of control" suggests that _____.
A. the wider the span, the easier it is for a supervisor to maintain close control
B. there is an optimum number of subordinates that a supervisor can effectively manage
C. supervisors should have unlimited subordinates to achieve economies of scale
D. supervision becomes unnecessary if subordinates are highly skilled (2 marks)

15. Which one of the following organisational factors would **MOST** strongly determine the degree of departmentalisation required?
 A. Managerial style
 B. Nature and complexity of activities
 C. Level of competition
 D. Financial position of the organisation (2 marks)

16. In selection, the human resource manager ensures every shortlisted candidate is asked the same set of predetermined questions to ensure fairness and comparability. This is an example of _____.
 A. structured interview
 B. stress interview
 C. informal interview
 D. panel interview (2 marks)

17. In a matrix project structure, employees are often faced with conflicts because they receive instructions from both a project manager and a functional manager. This challenge is **BEST** described as _____.
 A. duplication of resources
 B. unity of command violation
 C. bureaucratic rigidity
 D. lack of innovation (2 marks)

18. A bank introduces real-time fraud detection software that flags suspicious transactions instantly. At the same time, it conducts annual audits to review past performance and prevent recurrence of similar fraud in the future. Which one of the following combination of controls is being used?
 A. Feedforward and bureaucratic control
 B. Concurrent and feedback control
 C. Feedback and clan control
 D. Strategic and output control (2 marks)

19. In management, staffing is considered a continuous function because _____.
 A. it is performed only during recruitment seasons
 B. it ends once employees are hired
 C. people constantly enter, move within and leave the organisation
 D. it is less important than other management functions (2 marks)

20. Employees resist change because they fear loss of jobs, altered routines or lack of competence. Which one of the following aspects of the change process must managers focus on to reduce this resistance?
 A. Building urgency
 B. Reinforcing new behaviours
 C. Formalising rules and policies
 D. Addressing human and emotional factors (2 marks)

21. A Chief Executive Officer (CEO) motivates employees to embrace innovative ideas, fosters a strong organisational culture and encourages professional growth. Which one of the following leadership styles is exemplified here?
 A. Transformational
 B. Transactional
 C. Autocratic
 D. Laissez-faire (2 marks)

22. Planning and controlling are often described as two sides of the same coin. Which one of the following statements **BEST** justifies this statement?
 A. Planning sets objectives, while controlling ensures their achievement
 B. Planning and controlling are independent activities
 C. Planning replaces the need for controlling
 D. Controlling is more important than planning (2 marks)

23. Which one of the following levels of management serves as the key link between strategy formulation and day-to-day supervision by translating policies into departmental action plans?
 A. Supervisory management
 B. Middle-level management
 C. Top-level management
 D. Technical management (2 marks)

24. Which one of the following actions **BEST** demonstrates the exercise of conceptual skills in management?

- A. Drafting daily work schedules for frontline employees
- B. Troubleshooting a malfunctioning machine on the factory floor
- C. Designing an innovative corporate strategy in response to market shifts
- D. Conducting routine employee performance reviews

(2 marks)

25. Delegation is said to be complete only when three elements are transferred. Which one of the following represents this process?

- A. Sharing responsibility alone
- B. Giving authority without accountability
- C. Assigning authority, responsibility and accountability
- D. Removing responsibility from the superior

(2 marks)

26. According to the principle of unity of command, which one of the following situations demonstrates proper application of this principle?

- A. An employee receives orders from two supervisors at the same time
- B. An employee is answerable to only one superior for his work
- C. An employee is free to choose which superior to follow
- D. An employee reports to the entire management team collectively

(2 marks)

27. According to the principle of specialisation, what is the main advantage of dividing work among employees based on skills?

- A. It reduces the workload of top managers only
- B. It ensures every employee becomes a generalist in all functions
- C. It increases efficiency by allowing employees to focus on their areas of expertise
- D. It encourages frequent transfer of employees across departments

(2 marks)

28. In which one of the following types of organisation structures does authority flow directly from the top manager to the lowest employee without interruption?

- A. Line organisation
- B. Functional organisation
- C. Informal organisation
- D. Matrix organisation

(2 marks)

29. Which one of the following reasons is **NOT** a cause of employees resisting organisational change?

- A. Fear of losing their jobs or power
- B. Lack of understanding of the benefits of change
- C. Uncertainty about new processes
- D. Willingness to learn new skills

(2 marks)

30. Organisations today are increasingly adopting flexible work arrangements. Which one of the following reasons **LEAST** explains this trend?

- A. New technologies make it easier to coordinate employees across different work sites
- B. Decline in the importance of formal employment, with employees preferring compressed or staggered schedules
- C. Growth of Generation "Y" and increased participation of women in the workforce, requiring flexible arrangements
- D. Flexible work patterns always result in higher productivity, regardless of context

(2 marks)

31. A Pan-African distributor wants local responsiveness in West, East and Southern Africa while sharing corporate services. Which one of the following structural choices is **MOST** fitting?

- A. Pure functional
- B. Geographic divisional with shared service centers
- C. Simple structure
- D. Product divisional only

(2 marks)

32. The process of gathering information and comparing this information to preestablished standards is part of _____.

- A. influencing
- B. motivating
- C. planning
- D. controlling

(2 marks)

33. The following factors are considered in environmental analysis, EXCEPT _____.
A. economic issues
B. suppliers
C. demographics
D. media (2 marks)

34. An executive pursuing transformational change would give their highest priority to which one of these change targets?
A. Job design for individuals in a customer service department
B. The organisational culture
C. Technology support for a new management information system
D. An out-of-date policy (2 marks)

35. In a SWOT analysis, which one of the following issues is NOT an organisational weakness?
A. Inadequate research and development
B. Supply chain disruption
C. Outdated facilities
D. Poor management (2 marks)

36. Which one of the following is NOT an internal trigger for organisational change?
A. Employee preferences and suggestions
B. Shifting demographic patterns
C. Management decisions
D. Poorly designed organisation structure (2 marks)

37. The following are the roles of the manager as an agent of change, EXCEPT _____.
A. build trust amongst subordinates
B. encourage employee participation
C. provide information in advance
D. disregard informal communication and stick to the formal channels only (2 marks)

38. _____ are the type of skills that are vital in defining and understanding the state of affairs and events in the organisation.
A. Conceptual skills
B. Diagnostic skills
C. Human skills
D. Technical skills (2 marks)

39. Structure-related changes may mean the following, EXCEPT _____.
A. changing one form of organisation to another
B. changing problem-solving and decision-making procedures
C. changing the number of hierarchical levels
D. changing span of management (2 marks)

40. Which one of the following forms is the expression of human response to change?
A. Motivation
B. Organising
C. Resistance
D. Planning (2 marks)

41. Internal weaknesses of an organisation include all of the following, EXCEPT _____.
A. use of outdated technology
B. poor relationships between management and subordinates
C. changing consumer preferences
D. lack of innovative ability (2 marks)

42. Which one of the following statements is NOT a social objective of management?
A. To contribute in improving standards of living
B. To save the environment from getting polluted
C. To share their profits with the surrounding community
D. To create employment (2 marks)

43. Management as a profession is said to fulfil the following, EXCEPT _____.
A. availability of formal methods of training
B. existence of a body of knowledge
C. personal judgement
D. existence of a formal code of ethics (2 marks)

44. The functional areas of management are _____.
A. planning, organising, staffing, directing and controlling
B. directing, motivation and communication
C. production, marketing, personnel and finance
D. administration, coordination, production and finance (2 marks)

45. Improvement in modern technology has led to the following, EXCEPT _____.
A. availability of diverse information that helps management to make informed decisions
B. increase in the physical facilities in organisations
C. opened the work place to new approaches to doing work
D. opened a global market with diverse players (2 marks)

46. Which one of the following actions is NOT an element of organising?
A. Defining authority and responsibility
B. Departmentation
C. Defining the mission statement
D. Linking departments (2 marks)

47. Which one of the following functions of management ensures that actual activities conform to planned activities?
A. Organising
B. Planning
C. Controlling
D. Coordinating (2 marks)

48. The requirement that a manager should answer to a higher-level superior for results achieved by a work team is called _____.
A. authority
B. empowerment
C. accountability
D. dependency (2 marks)

49. Restructuring by downsizing operations and reducing staff is a form of _____ strategies.
A. growth
B. concentration
C. retrenchment
D. incremental (2 marks)

50. The contingency approach to management emphasises the viewpoint that what managers do in practice depends on overall on the _____.
A. task
B. situation
C. managers personality
D. worker (2 marks)

.....

ATD LEVEL II

PRINCIPLES OF MANAGEMENT

MONDAY: 18 August 2025. Afternoon Paper.

Time Allowed: 2 hours.

This paper consists of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

1. Which one of the following statements **LEAST** explains the relevance of open systems theory to 21st century managers?
 - A. Change in the environment that require managers to realign strategies since the organisation is dependent on the environment for resources
 - B. Sustainability concept requires management to adopt environmentally friendly policies in effective management of waste
 - C. Customer centric strategies in production process are needed for customer's retention and positioning in the market
 - D. Tall organisational structure design should be put in place to enable making of quick decisions with less consultations of employees in lower hierarchies(2 marks)
2. Neo-classical theories of management are a total departure from the classical theories of management. Which one of the following statements does **NOT** elaborate the contrast between neo-classical and classical theories of management?
 - A. Neo-classical theories are people oriented and advance a school of thought which believes that human behaviour influences organisation performance more compared to structures and systems in classical theories
 - B. Classical theories focus on external environment in designing of work systems for targets achievement compared to neo-classical theories which focus on internal environment and human resource
 - C. Classical theories are work and organisational centred and advance a school of thought which believes that human elements in organisations can be manipulated to achieve high performance through rules, procedures, systems and structures
 - D. Both neo-classical and classical theories advance a performance paradigm about organisation and human performance despite their contrasting difference in approach(2 marks)
3. Which one of the following management approaches may fail to spur innovation and creativity in an organisation?
 - A. Autocratic management
 - B. Transformational management
 - C. Participative management
 - D. Laissez-faire management(2 marks)
4. "Employees don't quit their jobs but they quit from toxic work environment".
With reference to the above statement, which one of the following work environments is **LEAST** toxic in leading an employee to quitting a job?
 - A. Incompetent bosses who undervalue the performance and achievement of the employees leading to poor alignment between workload and pay
 - B. Challenging tasks which though achievable and equitably compensated overstretch the employee skills and competencies
 - C. Values misalignment between individual and the organisation leading to lack of trust in leadership
 - D. Work life balance issues due to absence of remote or flexible work arrangements and which leads to detachment from personal life(2 marks)

5. Planning process involves clearly defined steps. Which one of the following descriptions is **INCORRECT** about the planning steps?

- A. Evaluation of alternatives step creates an indecision situation to managers in making optimal decisions due to dynamic environment
- B. Setting of objective step defines what the organisation desires to achieve, hence determining optimal resources application
- C. Monitoring and control step ensures that implementation is as per the plan schedule and control measures are undertaken to correct any deviations
- D. Feedback step allows or modification of the plans to align to the change in environment or modification of objectives

(2 marks)

6. Consultants are at times engaged to set organisational goals, a task which is a preserve of top management.

Which one of the following statements **BEST** explains why consultants are preferred in organisational goal setting?

- A. Consultant set goals are based on wide knowledge of the industry and hence are aligned to industry best practice
- B. Consultant goals are usually after broad consultation with all managers and hence have broad view of the organisation compared to managers set goals which at times are confined to departments
- C. Managers set less challenging goals which are easily achievable to ensure they are positively evaluated on their performance
- D. Goals are organisational specific and consultant's broad knowledge on industry can only be modified to fit the context of the organisation

(2 marks)

7. Which one of the following statements on leadership is **NOT** a distinct characteristic of servant leadership?

- A. The leader creates value for community by behaving ethically, responsibly and being accountable for actions which fail to promote sustainability
- B. Humility, shared leadership, putting subordinates first and voluntary subordination to followers
- C. Providing guidance to followers through a clear chain of procedures which are developed to serve both people and organisations
- D. Serving and developing others in a high involving environment which is modelled on integrity and authenticity

(2 marks)

8. Which one of the above statements indicates management as a science?

- A. Management is grounded on theories that are developed through systematic research and analysis of data to build causal relationships between concepts
- B. Organisational culture that puts emphasis on values, positive attitude and behaviour is critical for performance
- C. Networks and relationships that are built around informal groups provide employee motivation
- D. Learning through experiences is an effective method of gaining knowledge

(2 marks)

9. The management principle of Henry Fayol that explains power mechanism in an organisation is _____.

- A. span of control
- B. centralisation
- C. tenure stability
- D. Esprit de corps

(2 marks)

10. The following aspects of communication relate to classical theory of management, **EXCEPT** _____.

- A. vertical flow of communication using the scalar chain
- B. formal communication system of written memos to or from supervisors
- C. task related communication by managers to employees in regard to set targets
- D. social communication between work groups and teams

(2 marks)

11. Which one of the following actions by top management would increase resistance level during change process?

- A. Lack of top management support
- B. Top managers forcing change to employees
- C. Inconsistent actions by top management
- D. Top management failure to provide a clear change program

(2 marks)

12. Which one of the following types of organisational structures would enhance cross functional working of teams in an organisation?
A. Product structure
B. Functional structure
C. Branch network structure
D. Matrix structure (2 marks)

13. Skills sets that enable managers to visualise the entire organisation when making decisions solving problems or introducing new ideas are called _____.
A. technical skills
B. conceptual skills
C. diagnostic skills
D. analytical skills (2 marks)

14. Change is a permanent feature in today's management due to continuous disruptions. Which one of the following disruptions **LEAST** explains why change is a permanent feature in today's management?
A. Stability in market trends
B. Technological advancements
C. Globalisation and competition
D. Shifting consumer preferences (2 marks)

15. Matrix structures leads to enhancement of skills to employees working in projects due to the following reasons, **EXCEPT** _____.
A. allows team working between employees from different departments leading to sharing of tacit knowledge and skills
B. training is undertaken to employees from different departments involved in projects that use matrix structure in order to attain uniformity of skills application
C. dual reporting to two managers enables employees to learn from many managers
D. knowledge and information flow in matrix structure is less restricted and hence there is more learning (2 marks)

16. The following are principles guiding corporate social responsibility, **EXCEPT** _____.
A. the principle of profit motive; business exists for the benefit of investors and the society benefits from manager's initiatives of using profits to give back to society
B. the principle of legitimacy; society permits businesses to exist and grants them power and legitimacy which are lost once the business abuse them
C. the principle of public responsibility; businesses are responsible for outcomes related to their primary and secondary areas of involvement with the society
D. the principle of managerial discretion; managers are moral actors obliged to exercise reasonable discretion towards socially responsible outcomes (2 marks)

17. Which one of the following actions would be an example of an unplanned change in an organisation?
A. Introducing new technology systems
B. Expanding into new markets
C. A sudden economic crisis requiring cost-cutting measures
D. Implementing new performance reviews (2 marks)

18. In the context of change, "incremental change" refers to _____.
A. large-scale changes that restructure the organisation
B. gradual improvements in processes or systems
C. changes introduced to meet regulatory requirements
D. a complete transformation of the business model (2 marks)

19. Which one of the following courses of action is an example of a planned change?
A. Responding to a competitor's new product launch
B. Implementing a new customer relationship management system
C. A sudden shift in market conditions
D. A change in government policy (2 marks)

20. A company identifies that its products are highly regarded for quality but its distribution network is inefficient. Which one of the following components of SWOT analysis does this situation reflect?
A. Strengths and threats
B. Weaknesses and opportunities
C. Strengths and weaknesses
D. Opportunities and threats (2 marks)

21. The chief executive officer of a startup reviews their environmental scanning report and notices increasing competition. Which one of the following actions would be the **BEST** way to address this threat?
A. Launch a new marketing campaign to differentiate their product
B. Increase prices to improve profit margins
C. Avoid introducing any new products in the short term
D. Focus solely on retaining existing customers (2 marks)

22. A company's environmental scan identifies a growing demand for eco-friendly products. Which one of the following applications would be **MOST** suitable to support survival and growth?
A. Lower the prices of non-eco-friendly products to remain competitive
B. Transition the company's product line to include sustainable options
C. Survey existing customers about their opinion on eco-friendly products
D. Develop an advertising campaign to promote current products (2 marks)

23. During environmental scanning and analysis, a company discovers that their industry is expected to face stricter regulations in the next two years. Which one of the following courses of action would the company adopt?
A. Wait until the regulations are implemented before responding
B. Increase production immediately to maximise short-term profits
C. Begin aligning processes with anticipated regulations now
D. Focus resources on other areas of the business to avoid distraction (2 marks)

24. A school administrator decides to allocate more resources to teacher training programs to improve student performance. This decision is an example of _____.
A. strategic planning for long-term development
B. tactical planning to achieve medium-term goals
C. contingency planning for unforeseen challenges
D. operational planning for daily activities (2 marks)

25. A consulting firm adopts a matrix structure to manage overlapping client projects and internal research initiatives. Which one of the following challenges is **MOST** likely to arise from this organising approach?
A. Reduced flexibility in resource allocation
B. Ambiguity in reporting relationships
C. Lack of specialised roles
D. Excessive centralisation of authority (2 marks)

26. In an attempt to boost productivity, a company assigns team leaders the authority to allocate tasks and make decisions. However, conflicts arise as employees continue seeking approvals from higher management. Which one of the following organising principles has been violated?
A. Decentralisation
B. Unity of direction
C. Scalar chain
D. Unity of command (2 marks)

27. A manager gives a senior employee the responsibility to oversee the work of other staff members on a critical project. The senior employee is expected to make decisions, offer guidance and ensure that work is completed on time. This leadership style is _____.
A. laissez-faire leadership
B. transformational leadership
C. autocratic leadership
D. democratic leadership (2 marks)

28. A manager assigns tasks to subordinates, ensuring that each team member has a clear understanding of their responsibilities and deadlines. However, the manager also provides the autonomy to team members to handle issues without constant supervision. This is an example of _____.
A. autocratic leadership
B. laissez-faire leadership
C. democratic leadership
D. delegation (2 marks)

29. A human resource manager at a manufacturing company conducts a series of interviews to evaluate candidates based on their technical skills and ability to fit into the company's culture. This example of staffing process is known as _____.
A. job analysis
B. selection
C. recruitment
D. performance appraisal (2 marks)

30. An organisation is reviewing its staffing function and has identified gaps in leadership roles. To address this, the human resource team is focusing on succession planning and internal promotions, ensuring that potential leaders are developed from within the company. In staffing, this is an example of _____.
A. human resource planning
B. recruitment
C. job analysis
D. training and development (2 marks)

31. A company is struggling with high turnover rates among its sales staff. The Human Resource department conducts an analysis of the working environment, compensation packages and employee satisfaction to identify areas for improvement. This staffing component function analysis is an example of _____.
A. human resource planning
B. performance appraisal
C. job analysis
D. retention strategy (2 marks)

32. An organisation has established a system of key performance indicators (KPIs) to measure the efficiency of its production process. However, the results are consistently showing a mismatch between targets and actual performance. Upon evaluating the control system, the management concludes that the control measures were not aligned with strategic objectives. Which one of the following steps should the management consider?
A. Increase the frequency of performance reviews
B. Revise and align the performance measures with strategic goals
C. Increase resource allocation to the production team
D. Reduce the use of performance indicators (2 marks)

33. A financial services firm is considering adopting a new approach to monitoring employee performance, moving from traditional annual appraisals to continuous feedback and regular performance reviews. Which one of the following types of control is being implemented?
A. Preventive control
B. Concurrent control
C. Feedback control
D. Feedforward control (2 marks)

34. A retail company finds that, despite significant investments in training and technology, the sales performance in one region remains below expectations. After reviewing the control measures, it is concluded that the sales goals are unrealistic and do not align with the market conditions. Which one of the following actions should be taken to improve the control process?
A. Change the performance monitoring tools
B. Adjust the sales goals to reflect market conditions
C. Increase investment in training and technology
D. Reduce the frequency of performance evaluations (2 marks)

35. Which one of the following results was the primary focus of the "one best way" approach to work by Frederick Taylor's Scientific management theory?
A. Maximising employee satisfaction
B. Increasing the speed of production
C. Standardising tasks and optimising worker efficiency
D. Reducing labour costs through layoffs (2 marks)

36. According to Abraham Maslow's Hierarchy of Needs, which one of the following needs is at the highest level in the hierarchy?
A. Physiological needs
B. Safety needs
C. Self-actualisation needs
D. Social needs (2 marks)

37. The "Contingency Theory" of management suggests that _____.
A. there is one best way to manage any organisation
B. management approaches must be adapted based on the specific situation and external factors
C. scientific management techniques are universally applicable across all industries
D. employee motivation is largely determined by external rewards and punishments (2 marks)

38. A company has been struggling with a high labour turnover rate among lower-level employees. Upon reviewing the management structure, it becomes clear that middle-level managers lack the leadership skills to engage and motivate employees.
Which one of the following actions is the **MOST** appropriate strategy to address this issue?
A. Increase compensation and benefits for lower-level employees to reduce turnover
B. Provide leadership training and development programs for middle-level managers to improve their employee engagement skills
C. Implement stricter disciplinary measures for lower-level employees to address turnover
D. Replace middle-level managers with new managers who have better leadership skills (2 marks)

39. Which one of the following skills is essential for lower-level managers to effectively perform their role of overseeing and guiding the daily activities of employees?
A. Analytical skills
B. Conceptual skills
C. Technical skills
D. Human skills (2 marks)

40. In evaluating the qualities of an effective manager, which one of the following statements represents the **BEST** way of fostering a positive work environment and maintaining team productivity?
A. Strict adherence to organisational policies
B. Strong technical expertise in the field of operation
C. Excellent interpersonal and communication skills
D. A focus on increasing profitability and cost-cutting measures (2 marks)

41. A company has introduced a new technological system, but employees are resisting its adoption despite extensive training. Upon evaluation, it is determined that employees fear losing their jobs due to automation. Which one of the following strategies would be effective in addressing this resistance?
A. Reassuring employees of job security and emphasising the value of the new system in enhancing their roles
B. Reducing the scope of the new system to minimise the impact on employees
C. Offering financial incentives for those who embrace the change
D. Implementing stricter monitoring of employee performance to ensure adoption (2 marks)

42. Which one of the following evaluation criteria would be **MOST** important when assessing the impact of organisational change on employee performance?
A. The number of training sessions conducted
B. The level of employee satisfaction with the new system
C. The extent to which employees are able to meet new performance standards post-change
D. The financial cost of the change implementation (2 marks)

43. When assessing the effectiveness of a major change initiative, which one of the following factors is the **MOST** critical for a company to consider in terms of long-term sustainability?

- The degree of initial resistance faced during the change process
- The extent to which the change aligns with the organisation's values and culture
- The speed at which the change was implemented
- The resources allocated to training during the change process

(2 marks)

44. In the context of organisational change, which one of the following actions would be the **MOST** appropriate evaluation method to measure the effectiveness of communication strategies used to manage resistance to change?

- Conducting a post-change survey to assess employee perceptions and feedback on the clarity and frequency of communication
- Counting the number of emails sent to employees about the change
- Monitoring the number of meetings held to discuss the change process
- Analysing the cost of communication materials used during the change process

(2 marks)

45. A company plans to expand its operations internationally. As part of its external environmental analysis, it evaluates the economic conditions in the target market using PESTEL. Which one of the following economic factors would **MOST** significantly affect the company's decision to enter the market?

- The country's inflation rate and unemployment levels
- The technological infrastructure available for business operations
- The political climate surrounding foreign investments
- The demographic structure of the population

(2 marks)

46. In evaluating the impact of the external environment on business strategy, which one of the following methodologies would be the **BEST** to be used to assess the "Technological" factor in PESTEL analysis for a technology company planning to launch a new product?

- Evaluate the availability of government subsidies for innovation
- Analyse the pace of technological advancements and their potential to disrupt the market
- Assess the cultural acceptance of technology in the target market
- Investigate the legal restrictions on new technologies in the industry

(2 marks)

Use the following information to answer Question 47 to Question 50.

The following are current global trends that will distort the established principles and practice of management at work place:

- Environmental and natural challenges issues including climate change, green management and energy crisis
- Diversity management and degenderisation with more top positions being occupied by women and employees who are enabled differently
- Empowerment of employees through increased democratisation as indicated by enhanced engaged, increased involvement and participation in decision making
- Transformation of labour as management moves away from contracted employment to part time working, short contracts or outsourcing

47. Which one of the above global trends explains increased management participation in sustainability initiatives?

- (i) and (ii)
- (ii) and (iii)
- (i) only
- (iii) and (iv)

(2 marks)

48. Which one of the global trends promotes a recruitment and promotion policy of an "equal opportunity employer"?

- (ii) only
- (ii) and (iii)
- (iii) and (iv)
- (i) and (ii)

(2 marks)

49. The future of trade unions and their ability to negotiate for better employees' salaries, pensions and working conditions will be negatively impacted by _____.

- (iv) only
- (ii) and (iii)
- (iii) and (iv)
- (i) and (ii)

(2 marks)

50. Innovation and creativity in organisations will be enhanced if management practices _____.

- A. (i) and (ii)
- B. (iii) and (iv)
- C. (ii) and (iii)
- D. (i) and (iv)

(2 marks)

ATD LEVEL II

PRINCIPLES OF MANAGEMENT

TUESDAY: 22 April 2025. Afternoon Paper.

Time Allowed: 2 hours.

This paper consists of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

1. Which one of the following challenges is NOT associated with talent retention by management?
 - A. Mobility of talented employees due to skills and talent scarcity in the industry
 - B. Changing technologies that require management to continuously upgrade operational systems and improve employee capacity
 - C. Talent acquisition strategies which fail to utilise technology in recruitment
 - D. High demands by talented employees which are out of management's ability(2 marks)

Use the following information to answer Questions 2 to Question 4.

The following are statements about process theories of motivation:

- (i) Employee X is dissatisfied because he perceives the ratio of his outcome to input to be higher than that of employee Y who is paid comparatively higher salary.
- (ii) Achievements of the organisations and those of the informal groups in the organisation have failed to contribute to the attainment of employees aspirations.
- (iii) Extra effort put by employee Z which have led to better job performance have led to outcomes of her promotion, extra responsibilities and pay.
- (iv) The E-factors (energy, excitement, emotions and enthusiasm) have resulted to achievement of the projected organisational outcomes and have addressed individual own needs.

2. Which one of the statements above can be attributed to goal setting theory of motivation?
 - A. (i) and (iv)
 - B. (ii) only
 - C. (iii) only
 - D. (iv) only(2 marks)

3. Which one of the statements above can be attributed to equity theory of motivation?
 - A. (i) and (iii)
 - B. (iii) and (iv)
 - C. (i) only
 - D. (ii) and (iv)(2 marks)

4. Which one of the statements above can be attributed to expectancy theory of motivation?
 - A. (i) and (ii)
 - B. (ii) and (iii)
 - C. (iii) only
 - D. (iii) and (iv)(2 marks)

5. Management by Values (MBV) is viewed to be a superior management philosophy compared to Management by Objectives (MBO). In relation to the above statement, which one of the following statements is NOT a characteristic of management by values?
 - A. MBV uses explicit values that are clearly stated in organisation's value statement to guide employees in their performance and achievement of objectives
 - B. MBV aims at creating a set of values which guide in being more productive and achieving organisational objectives ethically

C. MBV enables managers to agree on a common direction and strategies which are communicated to the employees and stake holders
 D. MBV is characterised by qualities of sustainability, customer centric, team work and value for knowledge worker (2 marks)

6. Conflict is both functional and dysfunctional to an organisation. Which one of the following statements refers to the functional aspect of conflict?
 A. Conflict leads to group solidarity and cooperation between the conflicting groups by redefining identity and strengthening cohesion
 B. Tension and anxiety may arise during conflict as the opposing sides hold their positions as they negatively interpret action of others
 C. Emotional and physical stress emanate from conflict as each opposing side tries to impose its position
 D. Communication breakdown or distortion may arise when opposing sides decide not to talk to each other at the workplace (2 marks)

7. Product recall from the market back to the organisation's warehouses affect brand image and managers should therefore offer clear explanation to the public.
 From the above statement, which one of the following explanations from managers' perspective is **LEAST** convincing to the public as to why a product recall is undertaken?
 A. "The product recall was necessitated by quality lapse in one of the batches after the goods had already been released to the market; which has now been rectified"
 B. "The product recall is a strategic withdrawal to help the organisation focus on improving the product in readiness of an incoming competitor"
 C. "The product recall is part of the organisation's policy whenever customers provide dissatisfying feedback regarding a product quality"
 D. "The product recall was after noticing imitation of our packaging and logos in the market and which would have negatively impacted to our esteemed customers" (2 marks)

8. Intrinsic rewards are considered to offer a higher level of work satisfaction compared to extrinsic rewards. Which one of the following statements **BEST** explains why intrinsic rewards offer more work satisfaction?
 A. Intrinsic rewards contribute to a sense of growth, fulfillment and empowerment which increases the employee feeling of being valued and less intentions to leave the organisation
 B. Employee's work satisfaction from intrinsic rewards is influenced by his or her positive perception about the rewards and the feeling of being valued
 C. High levels of intrinsic rewards reduce the need for more extrinsic rewards by an employee and the need of adjusting salaries by an organisation
 D. Intrinsic rewards provide a genuine feeling for employees to support change being introduced by the organisation since they feel involved during the change process (2 marks)

9. Big data analytics technology has enhanced quality and effectiveness of decisions made by managers. Which one of the following statements offers satisfactory explanation of big data analysis on management's decision making?
 A. The quality of management decision based on big data analysis is biased towards analytical or quantitative methods of information processing
 B. Management decision based on big data analysis fails to provide evidence on decisions made where observations or reliance on precedents are required
 C. Big data analysis for decision making is largely based on industrial data and hence may fail to capture organisational business priorities
 D. Big data analysis provides correlations of different business variables hence enabling managers to evaluate different business scenario and making predictions (2 marks)

10. Management is required to put in place an effective orientation program which ensures that newly recruited employees don't quit the organisation during the initial months after recruitment.
 Which one of the following contents of an orientation program whose absence will have the **HIGHEST** influence in making an employee decide to quit?
 A. Introduction to various managers who the employees report to and the junior employees whom he/she is responsible for
 B. Description of the organisation layout as contained in the organisational chart and physical tour of the departments and the branches
 C. Elaborate discussion and direction about the job and the performance expectations, indicating critical areas of the job and operational relationships with other departments or stakeholders
 D. Salary and benefits administration manual in regard to payroll policy, payment dates, policy on the use of company vehicles and facilities and administration of leave days (2 marks)

11. Which one of the following steps is **NOT** part of the controlling functional process.

- A. Setting performance standards
- B. Measuring actual performance
- C. Delegating authority to employees
- D. Taking corrective actions

(2 marks)

12. The impact of a crisis to an organisation is influenced by manager's skills and preparedness on how to manage crisis. Which one of the following statements **BEST** indicates management's effectiveness in crisis management?

- A. Coordinated release of information and reassuring the public once a crisis occurs to avoid anxiety and speculation
- B. Have a risk management system that identifies critical factors which may trigger a crisis and develop strategies of pre-empting the risk
- C. Planning for the worst-case scenario by having contingency plans and putting aside contingency resources to avoid unpreparedness once a crisis occurs
- D. Having a crisis management policy with clear response plan and a pool of well-trained managers who can work as a team in crisis policy execution

(2 marks)

Use the following information to answer Question 13 to Question 16.

The following statements are about the various views about management:

- (i) Management is concerned with relations between employees, their agreed mode of behaviour, reasoning, beliefs and ways of expressing and sharing emotions.
- (ii) Management is about directing, sharing of resources, designing structures, rules and procedures which ensure effectiveness and efficiency.
- (iii) Management involves drawing of plans and strategies on how to make optimal use of scarce resources amidst competition between various departments.
- (iv) Management involves assigning duties, guiding staff, communicating with work teams and attending various meetings in the organisation.

13. Which of the statements above **BEST** describes management as a coordinating process?

- A. (ii) and (iv)
- B. (i) and (ii)
- C. (iii) and (iv)
- D. (ii) only

(2 marks)

14. Which of the statements above **BEST** describes management as a social process?

- A. (ii) and (iii)
- B. (iv) only
- C. (i) only
- D. (i) and (ii)

(2 marks)

15. Which of the statements above **BEST** describes management as an activity that requires economic resources?

- A. (ii) and (iii)
- B. (iv) only
- C. (iii) only
- D. (iii) and (iv)

(2 marks)

16. Which of the statements above **BEST** describes management as an activity?

- A. (ii) and (iv)
- B. (ii) and (iii)
- C. (i) and (iv)
- D. (iii) only

(2 marks)

17. Which one of the following statements describes the importance of environmental scanning?

- A. It helps managers understand external and internal factors that influence decision-making
- B. It focuses only on analysing a company financial performance
- C. It eliminates the need for strategic planning in an organisation
- D. It ensures that organisations do not adopt to internal and external changes

(2 marks)

18. Which one of the following statements **BEST** describes organisational change?
A. A small adjustment in one department of the organisation
B. Any modification in the organisation's structure, processes or technology
C. Keeping the organisation's structure constant while changing policies
D. A shift in employee roles within the organisation (2 marks)

19. Change in an organisation can be classified as _____.
A. planned or unplanned
B. direct or indirect
C. small or large
D. practical or impractical (2 marks)

20. A local bakery plans to expand its business by opening branches in neighboring towns. To ensure success, the management is in the process of conducting environmental scanning. Which one of the following actions is an example of this process?
A. Training employees on customer service techniques
B. Assessing potential competitors in the new locations
C. Deciding on the recipes for new pastries to introduce
D. Hiring new staff before opening the branches (2 marks)

21. ABC Ltd. is planning to expand its operations into Tanzania. To effectively allocate its limited resources, which one of the following actions would be the **MOST** appropriate?
A. Focus on upgrading existing technology in its home market
B. Invest in market research and partnerships in Tanzania
C. Develop new products for a different industry
D. Increase staff training only in its Kenyan office (2 marks)

22. Which one the following information explains how a retail chain identifies an increase in online shopping trends?
A. Reduce its investment in online operations
B. Invest in e-commerce infrastructure and digital marketing
C. Focus entirely on brick-and-mortar stores
D. Delay action until competitors have fully adopted the trend (2 marks)

23. A manager of a new restaurant wants to ensure smooth operations by setting daily, weekly and monthly goals. Which one of the following types of plans is the manager implementing?
A. Strategic plan
B. Operational plan
C. Contingency plan
D. Tactical plan (2 marks)

24. During the planning process, an organisation creates a hierarchy of objectives, starting from the overall corporate goal and breaking it down into departmental and individual goals. This approach is an example of _____ planning.
A. forecast-based
B. top-down
C. bottom-up
D. scenario (2 marks)

25. A multinational company handles its operations by creating divisions based on product categories, such as electronics, furniture and clothing. Each division is responsible for production, marketing and sales of its products. Which one of the following structures reflects the principle of organising?
A. Functional departmentalisation
B. Unity of command
C. Divisional structure
D. Decentralisation of authority (2 marks)

26. A tech startup expands rapidly and finds its current organisational structure insufficient to handle the increased complexity of operations. Management decides to implement a hybrid structure that combines functional and geographic divisions. Which one of the following principles of organising supports this decision?
A. Adaptability to environmental changes
B. Unity of command
C. Chain of command
D. Authority-responsibility balance (2 marks)

27. A financial services firm opts for a highly centralised structure to maintain strict control over compliance and risk management. Which one of the following drawbacks is **MOST** likely associated with this organising decision?
A. Reduced specialisation
B. Slower decision-making in local operations
C. Increased complexity in reporting relationships
D. Ineffective delegation of authority (2 marks)

28. A manufacturing company introduces a new production line. To ensure that the employees adapt quickly to the changes, the manager encourages team collaboration, provides guidance and monitors the performance closely. The manager is applying _____.
A. motivation
B. delegation
C. supervision
D. coordination (2 marks)

29. A sales manager provides team members with regular feedback, organises weekly meetings to discuss targets and offers incentives for high performance. This approach aims to achieve _____.
A. delegation
B. coordination
C. supervision
D. motivation (2 marks)

30. A team leader at a construction company motivates workers by offering rewards based on their performance and aligning work goals with personal aspirations. This motivational approach is based on _____.
A. Maslow's hierarchy of needs theory
B. Herzberg's two-factor theory
C. Expectancy theory
D. McGregor's Theory X and Theory Y (2 marks)

31. A multinational corporation is facing challenges in hiring qualified candidates for technical roles in its information technology (IT) division. The recruitment team has revised its job advertisements and targeted specialised job boards to attract candidates with the required skills. Which one of the following factors affects the staffing function?
A. Technological advancements
B. Organisational culture
C. Economic conditions
D. Labour market conditions (2 marks)

32. A global hotel chain is expanding its services in multiple countries. They need to consider cultural expectations and availability of talent in different regions when staffing new branches. These considerations relate to the _____ factor affecting staffing.
A. political
B. technological
C. legal
D. social (2 marks)

33. A multinational corporation has been experiencing a decline in its quarterly profits, despite the implementation of corrective actions. The management team decides to evaluate the effectiveness of its existing control systems and performance metrics to determine if they are adequately addressing the problem. Which one of the following types of control was applied in this case?
A. Feedforward control
B. Concurrent control
C. Feedback control
D. Preventive control (2 marks)

34. A company implements a new quality control system to monitor production defects. However, after evaluating the system's effectiveness, the management team finds that defects continue to occur despite the measures in place. Which one of the following aspects of the control process is most likely flawed?
A. Setting clear objectives
B. Implementing corrective actions
C. Measuring performance
D. Communicating performance standards (2 marks)

35. Which one of the following principles of management was **NOT** advocated for by Henri Fayol's Administrative management theory?
A. Unity of command
B. Scalar chain
C. Scientific selection of workers
D. Division of work (2 marks)

36. Which one of the following statements **BEST** describes the concept of "Theory X" in Douglas McGregor's Theory X and Theory Y?
A. Employees are motivated by self-fulfillment and take responsibility for their work
B. Employees inherently dislike work and must be coerced or controlled to achieve organisational goals
C. Employees are self-motivated and seek involvement in decision-making
D. Employees can be motivated through job enrichment and involvement in planning (2 marks)

37. Which one of the following statements represents a major criticism of Max Weber's bureaucratic management theory?
A. It overemphasises the role of informal leadership in organisations
B. It does not account for the need for flexibility and innovation in decision-making
C. It is too focused on employee autonomy and individual motivation
D. It encourages the decentralisation of power and responsibilities (2 marks)

38. Which one of the following statements is the **MOST** appropriate evaluation of a top-level manager's role in shaping the organisational culture?
A. Top-level managers typically focus on ensuring day-to-day tasks are completed, leaving culture development to lower-level managers
B. Top-level managers create the organisation's mission, vision, and values, thereby shaping the organisational culture
C. Top-level managers primarily handle the technical aspects of production, leaving cultural development to human resource
D. Top-level managers rarely influence organisational culture, as their focus is primarily on external relations and profitability (2 marks)

39. Which one of the following consequences is a major limitation of top-level management focusing too much on strategic decision-making and neglecting day-to-day operations?
A. It limits the ability of middle managers to implement strategies effectively
B. It results in a lack of focus on long-term organisational growth
C. It leads to insufficient focus on technological advancements and operational efficiency
D. It restricts the ability of the organisation to address employee morale issues (2 marks)

40. Which one of the following statements describes a key difference between a manager and a leader in the context of organisational effectiveness?
A. Managers focus on motivating employees, while leaders focus on controlling resources
B. Managers are primarily concerned with achieving organisational goals through established processes, while leaders inspire and guide employees to achieve broader visions
C. Managers focus on the long-term vision of the organisation, while leaders focus on day-to-day operations
D. Managers avoid taking risks, while leaders embrace uncertainty and encourage experimentation (2 marks)

41. When considering management at different levels, which one of the following actions is an example of a key responsibility for middle-level managers in an organisation?
A. Setting the overall vision and long-term strategic goals
B. Coordinating the day-to-day activities and operations of first-line managers
C. Evaluating the effectiveness of upper management in implementing strategies
D. Ensuring the alignment of operational performance with corporate policies and strategies (2 marks)

42. When evaluating the success of a planned organisational change, which one of the following statements refers to the **MOST** critical factor to assess?
A. The speed at which the change is implemented
B. The alignment of the change with the overall organisational strategy
C. The number of employees involved in the change process
D. The degree of external market competition (2 marks)

43. During a major restructuring, an organisation faced resistance from both employees and managers. In evaluating the change process, which one of the following methods would be the **MOST** effective to reduce resistance and ensure a smooth transition for the organisation?

- Mandating the change with strict policies and penalties for non-compliance
- Involving employees and managers early in the decision-making process to gather feedback and build commitment
- Reducing the communication regarding the change to prevent unnecessary anxiety
- Implementing the change gradually without informing employees in advance to avoid pushback

(2 marks)

44. When managing resistance to change in a hierarchical organisation, which one of the following approaches is **MOST** effective in fostering acceptance of the change at the lower levels?

- Directly enforcing the change through top-down commands without consultation
- Encouraging top management to personally communicate the vision behind the change and its benefits
- Ignoring employee feedback and proceeding with the change as planned
- Delegating the entire responsibility for implementing the change to the human resource department

(2 marks)

45. When assessing the types of organisational change, which one of the following statements would be classified as a transformational change that requires a fundamental shift in organisational culture?

- Introducing a new software system to improve operational efficiency
- Restructuring the organisation to reduce overhead costs
- Shifting from a centralised to a decentralised decision-making model
- Expanding the product line to include new market segments

(2 marks)

46. You are tasked with evaluating the external factors affecting a business using the PESTEL framework. Which one of the following factors would you consider as the **MOST** crucial when evaluating the political environment of a new market?

- The availability of skilled labour
- The stability of the country's government and its regulatory policies
- The social trends impacting consumer behavior
- The technological advancements in the industry

(2 marks)

47. In evaluating the changing business environment using PESTEL, which one of the following statements refers to the **MOST** likely external factor to cause significant disruption to a company's supply chain operations?

- Changing social norms affecting consumer purchasing decisions
- Introduction of stricter environmental regulations on emissions and waste
- The political instability in a foreign market where the company sources raw materials
- Advances in technology that improve production efficiency

(2 marks)

48. Which one of the following statements explains the similarity between managers and leaders?

- Both members and leaders inspire their followers to achieve through legitimate authority derived from positions held in the organisations
- Both managers and leaders engage in transactional relationship based on exchanges
- Both managers and leaders are involved in working with people and to achieve common goals
- Both managers and leaders require same knowledge, skills and understanding of their roles, tasks and purpose

(2 marks)

49. Which one of the following barriers to effective communication in management emanates from personalities?

- Semantic barriers
- Attitudinal barriers
- Psychological barriers
- Cultural barriers

(2 marks)

50. Which one of the following actions **BEST** evaluates the effectiveness of a manager's role in setting organisational goals?

- The manager sets goals without considering feedback from subordinates
- The manager sets clear and achievable goals in collaboration with team members
- The manager delegates all goal-setting tasks to senior executives
- The manager focuses on maintaining the status quo rather than setting new goals

(2 marks)

ATD LEVEL II

PRINCIPLES OF MANAGEMENT

MONDAY: 2 December 2024. Afternoon Paper.

Time Allowed: 2 hours.

This paper consists of fifty (50) Multiple Choice Questions. Answer ALL questions by indicating the letter (A, B, C or D) that represents the correct answer. Each question is allocated two (2) marks. Do NOT write anything on this paper.

1. The following are advantages of organisational charts, EXCEPT _____.
A. showing how much authority or responsibility is allocated to an individual
B. showing the whole organisation structure at a glance
C. enabling management to locate defects
D. differentiating levels of management and their relationships with one another (2 marks)

A. due to fear of the unknown
B. by a powerful group
C. due to misinformation
D. due to perceived loss of income (2 marks)

4. The following are advantages of line and staff organisation, EXCEPT _____.
A. providing opportunities for sound managerial decisions because decisions are made by experts
B. staff are specialists and thus they give best possible advice
C. provides opportunities for advancement
D. allows for greater flexibility (2 marks)

5. Which one of the following principles of organising is disregarded by a matrix organisation?
A. Unity of direction
B. Equity
C. Unity of command
D. Scalar chain (2 marks)

6. Which one of the following factors does NOT influence span of control?
A. Nature of subordinates
B. Communication techniques
C. Conflict between superior and subordinates
D. Technology (2 marks)

7. When a deputy governor of your county presides over the prize giving day at your local university, she is said to exhibit Mintzberg's role of _____.
A. figurehead
B. disseminator
C. liaison
D. spokesperson (2 marks)

8. The acceptance view of authority is associated with _____.
A. Fredrick W. Taylor
B. Henri Fayol
C. Chester Barnard
D. Mary Parker Follet (2 marks)

9. Which one of the following statements is **NOT** a contribution of McGregor to management development thought?
A. Emphasis on professionalisation of management
B. Theory X and Y
C. Self-appraisal and evaluation rather than appraisal by superiors
D. Formal and informal organisations (2 marks)

10. The following are characteristics of administration, **EXCEPT** that it _____.
A. involves personnel at the top level of the organisation
B. deals with policy formulation
C. is not actively concerned with execution of plans
D. uses and motivates organisation of people for the actual attainment of goals (2 marks)

11. Which one of the following functions is **NOT** an operative function of human resource management?
A. Manpower planning
B. Recruitment
C. Selection
D. Training and development (2 marks)

12. The following are off-the-job training methods, **EXCEPT** _____.
A. simulation exercises
B. understudy assignments
C. vestibule training
D. field attachment (2 marks)

13. Which one of the following features is associated with laissez-faire style of leadership?
A. Does not give much scope for the development of employees
B. Self-motivated to work
C. Leaders retain the authority for decision making
D. Task oriented behaviour (2 marks)

14. Which one of the following skills is **LEAST** important to the lower level management cadre?
A. Design skills
B. Diagnostic skills
C. Human skills
D. Technical skills (2 marks)

15. According to Maslow's hierarchy of needs, how many levels do people have?
A. 5
B. 6
C. 4
D. 3 (2 marks)

16. The following are emotional factors that could lead to resistance to change in an organisation, **EXCEPT** _____.
A. ego defensiveness
B. group norms
C. threats to power and influence
D. social displacement (2 marks)

17. Which one of the following leadership theories suggest that leadership success is achieved by correctly matching leadership style with situations?
A. Transformational
B. Traits
C. Blake and Mouton's
D. Fiedlers (2 marks)

18. In an organisation, coordination helps to _____.
A. enhance specialisation among employees
B. promote interdependence of organisational units and sub-units
C. promote individual versus organisational interests
D. eliminate excessive management control (2 marks)

19. Which one of the following is the third step involved in control process?
A. Take corrective action
B. Establish control standards
C. Modify standards to fit circumstances
D. Compare results with objectives (2 marks)

20. The type of control that focuses on what happens during the work process is known as _____.
A. clan control
B. concurrent control
C. feedforward control
D. internal control (2 marks)

21. Divisional structure is a type of organisational structure that groups _____.
A. jobs and activities that are part of the same processes
B. people together and jobs performed in the same location
C. people together working on the same product in the same area with similar customers or on the same processes
D. people together and jobs focused on single product or service (2 marks)

22. The following are characteristics of delegation, EXCEPT _____.
A. delegated power can be revoked at any time
B. delegation involves total transfer of final authority
C. delegation may be downward, upward and even sideward
D. delegation creates a relationship of dependency between the superior and the subordinate (2 marks)

23. Which one of the following statements is NOT a purpose of conducting employee appraisal?
A. Training and development
B. Compensation decisions
C. Demotion and transfer
D. Personal development (2 marks)

24. Employee selection process involves the following activities, EXCEPT _____.
A. checking of references
B. on campus recruitment
C. physical examination
D. screening of applications (2 marks)

25. Which one of the following elements is NOT a factor in planned change?
A. Structure
B. Environment
C. Technology
D. Task (2 marks)

26. Planning for change in an organisation is an essential step in the management of organisational change. It attempts to answer the following questions, EXCEPT _____.
A. how much will the change cost?
B. when will the change take place?
C. how will change be brought?
D. who will introduce the change? (2 marks)

27. Which one of the following statements is NOT an advantage of management audit?
A. Permits a more objective and complete evaluation of the total management and the operating structure
B. It is carried out by readily qualified management auditors
C. It provides adequate measure to examine the extent to which the current managerial controls are effective
D. It enables management to find out specific problem areas (2 marks)

Use the following information to answer Question 28 and Question 29.

The following are descriptions of unity of command and unity of direction:

- (i) Relates to efficient functioning of personnel by avoiding conflicts, confusion and chaos in the various units of the Organisation.
- (ii) Relates to efficient functioning of the departments in the whole organisation by avoiding wastage of efforts and resources.
- (iii) Ensures that subordinates receive orders and instructions from one supervisor.
- (iv) Ensures that entire organisation is coordinated towards achieving a common and clearly defined objective.

28. Which of the above descriptions clearly fits unity of direction?

- A. (i) and (ii)
- B. (ii) and (iii)
- C. (iii) and (iv)
- D. (iv) only

(2 marks)

29. Which of the above descriptions clearly fits unity of command?

- A. (i) and (ii)
- B. (i) and (iii)
- C. (ii) and (iii)
- D. (ii) and (iv)

(2 marks)

Use the following information to answer Question 30 and Question 31.

The following are statements about work environment to be found in different organisations:

- (i) Management has set clear guidelines to be followed by employees in their tasks.
- (ii) Employees always seek approval from management before trying new work methods.
- (iii) Organisation structure is flexible enough to enable sharing of information.
- (iv) Management recognises employees who come up with innovations.

30. Select the statement (s) that will highly influence level of innovation and creativity.

- A. (i) and (ii)
- B. (ii) and (iii)
- C. (iii) and (iv)
- D. (iv) only

(2 marks)

31. Describe the type of organisation structure which is associated with work environment described by (iii) above.

- A. Organic structure
- B. Bureaucratic structure
- C. Mechanistic structure
- D. Matrix structure

(2 marks)

32. Which one of the following statements do **NOT** describe the importance of managerial controls?

- A. Helps in aligning strategy to changes arising from dynamic environment
- B. Ensures that standards and quality are maintained during performance
- C. They are expensive and utilise resources required to enhance performance
- D. Aids in implementation of plans by pointing out deviations from expected performance

(2 marks)

33. Knowledge used during organisational learning is either transferable or non-transferable between employees. Which one of the following knowledge types is **NOT** transferable between employees during organisational learning process?

- A. Routine knowledge involving repetitive application of procedures and use of similar tools
- B. Experimental knowledge or hands on experience involving trying out new tasks
- C. Conceptual knowledge which is gained through analysis of behavior, data and trends
- D. Knowledge residing in the minds of individuals and is independent of the organisation

(2 marks)

34. Which one of the following statements **LEAST** explains why it is easier to have conflict instead of cooperation in management of organisation?

- A. Management is usually poorly equipped with appropriate skills on how to manage conflict
- B. Resources in organisations are ever scarce and hence there is competition between departments
- C. Differences in interests or goals between employees, departments and management leading to absence of goal congruence
- D. Introduction of change by management disrupts status-quo, creates uncertainty and raises fear (2 marks)

A. Safety needs
B. Self-actualisation
C. Esteem needs
D. Belongingness and love needs (2 marks)

23. Which of the following statement **BEST** describes why environmental scanning is crucial for businesses?
A. Environmental scanning helps businesses to ignore external factors and focus on internal operations
B. Environmental scanning helps businesses to isolate strengths and weaknesses without considering opportunities and threats
C. Environmental scanning helps businesses to stay aware of changes in the business environment and adapt strategically
D. Environmental scanning helps businesses to maintain status quo (2 marks)

24. Which of the following is a factor that can affect the organising function in an organisation?
A. The size of the workforce and the nature of the work
B. The colour of office walls
C. Employee preferences for work hours
D. The organisation's mission statement (2 marks)

25. Which phase of the change process involves creating a sense of urgency and identifying the need for change?
A. Implementation
B. Resistance
C. Planning and strategy
D. Assessment and diagnosis (2 marks)

26. Which of the following statement illustrates what effective administrators are skilled in?
A. Setting long-term organisational goals
B. Making high-level strategic decisions
C. Handling routine tasks and processes
D. Inspiring and motivating employees (2 marks)

27. Who among the following theorists is known for his scientific management principles emphasising time and motion studies to increase efficiency in the workplace?
A. Henri Fayol
B. Max Weber
C. Frederick Taylor
D. Abraham Maslow (2 marks)

28. Which of the following is the primary goal of applying appropriate tools for environmental analysis in a business?
A. To ensure the business makes short-term profits
B. To ensure the business dominates market share
C. To ensure the business reduces costs immediately
D. To ensure the business survives and grows in the long term (2 marks)

29. Which of the following statement shows why planning is considered crucial in management process?
A. It eliminates the need for organisational structure
B. It ensures immediate success
C. It minimises the need for decision-making
D. It provides a roadmap for achieving goals (2 marks)

30. Which type of organisational change involves making phased adjustments to existing processes and procedures?
A. Transformational change
B. Incremental change
C. Revolutionary change
D. Reactive change (2 marks)

31. Which of the following statement **BEST** shows the primary role of a leader in an organisation?
A. Inspiring and guiding employees
B. Monitoring daily operations
C. Enforcing policies and procedures
D. Setting financial goals (2 marks)

32. Which classical management theorist introduced the concept of the scalar chain and the principles of unity of command and direction?
A. Max Weber
B. Elton Mayo
C. Mary Parker Follett
D. Henri Fayol (2 marks)

33. Internal environment analysis is concerned with the following factors, **EXCEPT** _____.
A. Factors that are beyond control of the organisation
B. Factors that are under control of the organisation
C. Factors that are internal to the organisation
D. Factors that are important for decision making (2 marks)

34. Which of the following approach to planning focuses on adapting to changes in the environment and being flexible in goal-setting?
A. Contingency approach
B. Traditional approach
C. Incremental approach
D. Static approach (2 marks)

35. During the change process, what typically follows the planning and strategy phase?
A. Diagnosis
B. Implementation
C. Feedback
D. Monitoring (2 marks)

36. Which of the following is **NOT** a staffing function?
A. Recruiting
B. Selecting
C. Delegating
D. Training (2 marks)

37. Which of the following statement is **TRUE** about Max Weber's bureaucratic theory of management?
A. The theory emphasises a decentralised organisational structure
B. The theory emphasises informal communication networks
C. The theory emphasises a clear hierarchy of authority and formal rules and regulations
D. The theory emphasises human relations and social interactions (2 marks)

38. In a **SWOT** analysis, opportunities and threats are considered part of the _____.
A. External environment
B. Internal environment
C. Organisational strengths
D. Managerial decisions (2 marks)

39. Which of the following principle of organising suggests that employees should have a single, clear supervisor?
A. Unity of direction
B. Scalar chain
C. Span of control
D. Division of labor (2 marks)

40. Which of the following type of control focuses on comparing actual performance to predetermined standards and taking corrective actions as needed?
A. Feedforward control
B. Concurrent control
C. Pre-control
D. Feedback control (2 marks)

41. Which of the following statement **BEST** describes the meaning of an organisational structure?
A. The physical layout of an office
B. The people in leadership positions
C. The arrangement of tasks and responsibilities within an organisation
D. The number of employees in an organisation (2 marks)

42. Which of the following needs are considered the highest priority for individuals according to Abraham Maslow's hierarchy of needs theory?
A. Physiological needs
B. Safety needs
C. Social needs
D. Self-actualisation needs (2 marks)

43. Which of the following statement shows the primary purpose of conducting a **SWOT** analysis?
A. To identify key competitors
B. To develop a long-term business strategy
C. To analyse short-term financial performance
D. To implement marketing tactics (2 marks)

44. Which of the following statement illustrates why staffing is considered a vital function in management?
A. It reduces the need for control
B. It ensures cost efficiency
C. It brings in the right people
D. It limits employee participation (2 marks)

45. Which of the following shows the correct sequence of steps in the control process?
A. Establish standards, measure performance, compare to standards, take corrective action
B. Measure performance, take corrective action, establish standards, compare to standards
C. Compare to standards, take corrective action, establish standards, measure performance
D. Establish standards, compare to standards, measure performance, take corrective action (2 marks)

46. Which of the following statement shows why organising is a critical function in management?
A. It simplifies the planning process
B. It eliminates the need for leadership
C. It ensures efficient use of resources
D. It reduces the need for decision-making (2 marks)
